NO. 7656—SIXTH YEAR. COLORADO SPRINGS, COLO., SATURDAY, JANUARY 8, 1912.—TWELVE PAGES. PRICE FIVE CENTS

TO REPEAL BUCKLIN BILL

Colorado Springs Bankers Take Initiative to Accomplish This

AT COMING EXTRA SESSION

Formal Petition Will Be Presented to the Governor Today Stating Objections to the Bill.

Colorado Springs bankers are of the opinion that if Governor Orman calls the legislature together in extra session there is something else for it to consider than the revenue bill that failed. The men of finance of Colorado Springs yesterday started a movement among the bankers of the state to have the Bucklin tax bill included in the subjects to be named in the call for consideration at the extra session. They believe that the operation of this bill would be a serious detriment to the business interests of the state and are going to leave nothing undone to have it repealed. Bankers at Pueblo, Denver and other cities in the state will today petition the governor by wire to include this subject in his call if one is issued.

Colorado Springs citizens yesterday sent a telegraphic request to Governor Orman as follows:

"If you issue a call for an extra session of the legislature please include provision for consideration of the Bucklin bill."

The request was signed by A. G. Lind, A. G. Sharp, P. B. Stewart, J. J. McKinnie, C. H. Henning, E. J. Eaton, J. A. Hayes, A. Sutton, A. T. Hunt.

This message went to Governor Orman yesterday and steps were taken immediately to put the matter before him in a more comprehensive form today. The petition given in the following dispatch was prepared last night and will be presented this morning.

Special to the Gazette.

Denver, Jan. 17.—A petition will be presented to Governor Orman tomorrow which will ask the governor to include in his call for an extra session of the legislature a section demanding the repeal of the Bucklin and tax constitutional amendment which was passed by the 12th general assembly. The petition was drafted in this city today and is being circulated and signed by the bankers of this city, Colorado Springs and other cities of the state. It gives six reasons why the bill should be repealed. It reads as follows:

"To His Excellency, James B. Orman, Governor of the State of Colorado:

"Dear Sir—You petitioners most respectfully urge that if you call an extra session of the legislature for the purpose of considering the revenue laws of the state, you will include and name in the call the repeal of 'An Act to Submit to the Qualified Electors of the State of Colorado an Amendment to Article 10 of the Constitution of the State of Colorado,' commonly known as the Bucklin Land Tax Bill, for the following reasons:

"First—Said bill contemplates an entirely new system of revenues, and is in direct conflict with and in antagonism with the revenue law passed by the last legislature and proposed to be repealed at the extra session. Said bill makes it possible to collect all the revenue of the state from the owners of real estate and to exempt every other species of property except franchises, including merchandise, stocks, bonds, moneys, notes, credits and buildings of every description. For many years past an effort has been made in this state to assess personal property including bonds, stocks, mortgages, moneys, notes and credits, to collect taxes thereon. This proposed amendment to the constitution makes it possible for such property to entirely escape taxation of all kinds, while the holders of such property derive all the benefits of city, county and state protection and improvement.

"Second—This bill was passed without the knowledge of the people of the state and the terms of said bill were not understood by the people and are wholly misleading.

"Third—Such bill will place the owners of real estate, who have invested their life's earnings in this species of property open to the merciless attacks and oppression of the owners of every other species of property and at the mercy of all persons who pay no taxes whatever but who hope to make some indirect gain by reason of this revolutionary measure. As an illustration, the Equitable building, owned by one of the non-resident corporations, possessing millions of dollars of capital and costing approximately a million and a half dollars, would if the provisions of said bill are carried out, be entirely exempt from taxation and only the land on which the building stands will pay taxes, while the same amount of ground on the opposite corner with nominal improvements would pay taxes for the same amount.

"As a man who has $100,000 invested in his residence independent of the land does not pay any more taxes than the individual who owns the property across the way upon which there are no improvements, and the American Smelting & Refining company, who have millions of money invested in plants throughout the state will pay no more taxes than the man who owns several adjoining their works. The mechanic who has two lots with a small house thereon will pay as much taxes as the man who has two lots with a $25,000 house thereon if similarly situated. Also the department stores with stocks exceeding a million of dollars and their splendid buildings would pay no more taxes than the small merchant who has a $100 stock and no building.

"We feel that not one of us as yet understands how far reaching in its effects this bill is. Look at it from any standpoint and illustrations are presented showing industrial ruin in consequence. A large part of the land in many of the counties still belongs to the government and is used for public range. If the provisions of this bill are carried out, live stock in this state being exempt from taxation, the live stock of the adjoining states would be driven into Colorado to feed upon its free range that properly belongs to residents of this state, without revenue to the state, thus ruining the live stock interests of Colorado.

"Fourth—The fact that said proposed amendment is now before the people is just beginning to be known, will not only paralyze the entire business of the state but will prevent existing loans from being renewed and new loans from being made.

"Fifth—As the terms of this bill are being understood it is creating consternation among business men all over the state and the adoption of the amendment would throw all private and public business affairs into a convulsion from which it would be impossible for the state for recover within the next 10 years.

"Sixth—The inevitable result of said bill does not exist in any civilized community either in the United States or elsewhere, and any statement to the contrary is one of the false statements made by the supporters of the bill to disguise its true purpose.

"Our state is now in the height of its prosperity. Our mechanics are all employed, our merchants thrifty, our city the best, capital from all over the country is seeking investment here and we cannot afford to bring about a condition of chaos entering the experimental stage, a condition which would bring forth scorn from our sister states, a condition which age and wisdom have shown should be religiously avoided.

"We respectfully submit to our Excellency the fact that if this repeal is not included in your call for an extra session and the bill should become a law next November, that disaster to our state would be appalling and by not including this repeal in the call, our Excellency would be doing the state a grevious wrong."

The petition will be submitted to the governor in the morning.

It is reported tonight that the state board of equalization has reached a valuation upon corporate property at about $1,000,000 less than it was valued by the state board of assessors. The report is not confirmed.

GOVERNOR WILL COMPLETE CALL FOR EXTRA SESSION

Special to the Gazette.

Denver, Jan. 17.—The call for an extra session of the legislature will be completed some time tomorrow afternoon and will be published Sunday morning. The valuation of the corporate property as ascertained by the state board of equalization will also be made public at the same time, Governor Orman told evening callers.

"We have about completed the work of valuation of the corporate property and all that remains now is for the clerk to compute the figures which will in all probability be completed by tomorrow afternoon. I have also about completed the call for the extra session. There are a few minor matters that I want to look into after that it will be ready for issuing. I hope to and think I shall have it ready by tomorrow night."

In discussing what would be included in his call, Governor Orman said:

"Of course the revenue bill will be the principal issue. I want a law passed that will raise the revenue for the state. I understand that one of the reasons of the senate in the employers' liability bill is missing, which might invalidate that law. I shall probably call the attention of the legislature to this fact and ask them to rectify the error. I am also in favor of the passage of the Gunnison-Uncompahgre canal bill, which is technically known as canal bill No. 13, but an error was made which prevents the issuing of the certificates of indebtedness of the canal. In other words, the bill as it worked into the statute book, shall very likely mean the contest that the law be so amended as to allow those certificates of indebtedness to be sold.

"I have not fully decided whether I shall include the railroad commission or not. That is one of the things I am considering. You understand that in my call I mention the subjects I wish considered, and in my message which will be delivered the day the session opens, I treat the subjects mentioned more fully. The date for the assembling of the legislature has not been decided. I think the session will last not over 15 days."

The error in the passage of the employers' liability bill was first brought to the public notice through the columns of the Gazette. Since then considerable discussion has been going as to whether or not the law was constitutional. It was claimed by some that if the bill was proved to have been correctly passed, even though the journal failed to show it this would be sufficient. The argument in the journal cannot be gone into of which was made to support the revenue bill, completely kills the employers' liability bill, so it was decided to include the latter in the call and pass it.

Canal bill No. 13 is the bill providing for the erection of the Gunnison and Uncompahgre canal, which will when completed irrigate about 200,000 acres of now uncultivated land. The bill provides for an appropriation of $25,000 by the state and the people in the inner state are to subscribe of the canal will raise the remainder. The cost will be $600,000. One of the canal trustees said today that one man had promised to buy enough of the certificates of indebtedness to build the canal when the certificates can be sold.

HUNDREDS OF LIVES LOST IN MEXICAN EARTHQUAKE

Catastrophe Reported to Have Occurred in State of Guerrero.

DEATHS IN PARS- [illegible]

Still Massing Walls Toppled Over When Worshipers Gathered for Afternoon Service—Shocks Felt in Mexico City.

By Associated Press.

Mexico City, Jan. 17.—One of the most terrible catastrophes in the history of the state of Guerrero is reported to have occurred yesterday afternoon when an extremely violent earthquake shock was felt at Chilpancingo, causing a great loss of life and injuring many persons. Details from the stricken district are very meager but scattering reports received here indicate that probably 300 persons were killed and as many more injured. It is known that the state capitol, the parish church and many business houses and residences are in ruins and that there is much suffering as a result of the awful seismic disturbance.

One of the edifices that suffered most was the federal telegraph office which explains the paucity of news that has so far reached the city.

Meager detail is finally begin to arrive here. The telegraph lines and apparatus at Chilpancingo were badly damaged but the employes, all of whom were uninjured, quickly succeeded in erect an improvised telegraph office on the outskirts of the city.

The number of deaths was greater in the parish church than in any single place as a crowd of worshipers was gathered there for the afternoon service. The solid masonry walls and the roof came topping on the worshipers and many of those within were killed. The war department has ordered troops in the neighborhood to cooperate in the work of rescue. Until this work is completed it will be impossible to accurately learn the number of victims. It is believed, however, that this is one of the most destructive seismic phenomena that has occurred in Mexico. The greater part of the population of Chilpancingo are now camping out under tents around the town, which is five days journey from the national capital.

Earthquake shocks were felt in many other cities and towns.

In Mexico City the earthquake occurred at 5:17 o'clock yesterday afternoon and was of such violence as to shake the most substantial buildings. The Panamerican congress was in session at the time and many of the delegates were greatly alarmed. The first movement was one of trepidation and was very sharp. It was followed by an easy oscillatory movement, north-east, south-southwest. The duration was 35 seconds. The damage in this city was slight.

The state of Guerrero has always been the focus of seismic disturbances. Reports received here state that the shock was very severe at Chilapa. No casualties are so far reported from there.

The duration of the Chilpancingo shock was less than that in Mexico City having lasted 50 seconds against 55 seconds at the capital.

FRYE'S SHIP SUBSIDY BILL

Senate Committee on Commerce Has Authorized Favorable Report.

SUMMARY OF THE REPORT

Claims Is Made That the Proposed Measure Will Give Maritime Independence to United States.

By Associated Press.

Washington, Jan. 17.—The senate committee on commerce today authorized a favorable report on Senator Frye's ship subsidy bill. The report will be made by Senator Frye.

The democratic members of the committee voted against reporting the measure. They also voted solidly for a motion offered by Senator Mallory to strike out the general subsidy provision of the bill. The committee made several amendments to the bill. The most important were: Allowing mail-carrying vessels under the bill to be either iron or steel, instead of steel only as originally provided, and reducing to one thousand gross registered tons the vessels receiving a bounty under the bill.

The report prepared by Senator Frye was read to the committee. It says that the purpose of the bill is to establish the maritime supremacy of the United States in trade with Asia and in the Gulf of Mexico and the Caribbean; to establish thoroughly trade between the United States and South American republics and to give the United States a respectable representation on the North Atlantic. The claim is made that if these results will be accomplished within 10 years. The report also asserts that the bill will so extend ship building as to transfer in time from abroad to the United States the center of that industry as the centers of other industries recently have been transferred, and also that it will give to the United States a measure of maritime independence corresponding to our industrial and agricultural independence.

Senator Frye furnished to the press the following summary of the report:

"The establishing of this complete ocean mail service, involving much ship building will require several years. It will render the United States as independent of foreign powers for its ocean mail service as is Great Britain. The cost of the American service by American mail steamers will be $4,700,000; the cost of British and colonial service by British steamers is $4,700,000. Receipts from ocean postage by the United States are now estimated at $3,000,000. The annual deficit under the American system proposed, including minor services, will be about $2,000,000. The annual deficit under the British colonial system is $2,188,000.

"The postal subsidy provisions enable the postmaster-general to establish an American ocean mail system superior to the systems of Great Britain, France and Germany.

"The American ocean mail system outlined contemplates on the Pacific weekly mail services to Hawaii, the Philippine islands, China and Hongkong, and a fortnightly service to Pago Pago, New Zealand and Australia.

"The maximum cost would be $2,335,000.

"On the Atlantic the bill contemplates semi-weekly mail services to Jamaica, Havana and Europe; weekly to Europe; once in 10 days to Venezuela, and fortnightly to Brazil, at a maximum cost of $2,355,000.

"The report compares in detail the American service proposed with British service and asserts that the bill revolutionizes American favor as against the Suez route, the world's ocean mail connections with China and Japan and will affect Australian connections.

"It will give the United States 32 auxiliary merchant cruisers compared with Great Britain's 50.

"The second part of the report deals with the general subsidy to American vessels, steam and mail, except mail steamers. It quotes President Roosevelt's message, showing that the cost of building American ships is greater than the cost of building abroad; that American wages on ships board are higher and that the house should remedy these inequalities. Discriminating duties, export bounties and subsidies based on export cargoes are in violation of our international obligations, so direct subsidies, it says, is the only practical method. The subsidy proposed is not a national bounty, for it is based on public services to be rendered.

"Americans have absolute free trade on foreign-going ships, so no shipbuilders trust is possible under the bill. Ship builders can import now free of duty materials for foreign trade so no American can raise prices of materials.

"If any American ship owner will build a vessel in the United States, employing home labor, employing American officers and crews, performing certain services for the American government and using the vessel to promote American commerce, he will be paid a subsidy sufficient to put him on an equality with the foreign ship owner, employing foreign labor and serving a foreign government.

"The average cost of building ocean steamers, mainly for cargo, is $102 per ton in the United States and $76 in Great Britain. Average monthly wages on ocean steamers, mainly for cargo, are, American $36, British $26, German and Scandinavian $17. The general subsidies proposed equalize American and foreign costs on these classes.

"The bill will promote the building of new vessels of large carrying capacity which promote export trade at low freight rates. Combined with our geographical position it gives special advantages to American vessels in the Pacific trade.

"Based on actual navigation of American vessels in foreign trade in 1909, the subsidies proposed would amount to $1,672,000, divided as follows: Steam (exclusive mail vessels), $559,000; sails, $5,3,000. Geographical by Atlantic ocean, $144,000; Pacific ocean, $867,000; square rigged ships on both oceans, $561,000.

"The compliance with all requirements of the bill would fix the initial expenditure at between $800,000 and $900,000.

"Under the general subsidy increase in expenditure depends on increase in ship building. The completion of 200,000 tons of ocean steamers for foreign trade in one year, involving $1,300,000 in subsidies, would place the United States in advance of Germany as a ship building nation.

"The deep sea fisheries bounty is to encourage an industry which from the battle of Lexington to the battle of Santiago has furnished more men proportionately for the national defense than any other American industry. The annual expenditure is estimated at $175,000. This amount offsets $160,000 paid to promote fisheries by Canada, which uses for the purpose the annual interest on $5,500,000 paid by the United States to Canada under the Halifax award in 1878. For 70 years the United States has paid bounties to deep sea fishermen.

"The President of the United States has general supervision of the regulations to enforce the act.

BILLIARDS IN DENVER.

By Associated Press.

Denver, Jan. 17.—Fred Eames, champion billiard player of New England, tonight defeated Tony Sarcone of Denver, in a 14-inch balk line game, by a score of 400 to 169. Eames had agreed to give odds of 400 to 250. Eames won in 36 innings, his average being 11 and his highest 59, while he failed to score six times. Sarcone played 35 innings, his average being five and his highest 38. He failed to score nine times.

Mr. and Mrs. John Colyer and Mr. and Mrs. William I. Vliet of Newark, N. J., have taken apartments at the Alta Vista for the winter.

PROPOSITION IN BEHALF OF DARIEN CANAL ROUTE

By Associated Press.

Washington, Jan. 17.—The sub-committee appointed to hear the representations in behalf of the several canal projects met during the afternoon for the purpose of interrogating representatives of the American Siamian Ship Canal company. Those who spoke for this company were General Edward W. Serrel, consulting engineer; H. F. Adams, a stockholder, and Theodore Shroeder, counsel. They control the Darien route, also designated as the San Blas route. They claim to be able to secure a canal at sea level which will be only 30 miles in length from ocean to ocean. Their route extends from Mendago harbor to Pearl island and is based on surveys made first by Prof. Hopkins in 1880 and, afterward by Messrs. McDougal, Sweet, Forman and Tudor. The plan is to run a tunnel for five miles, this tunnel to be 202 feet in the clear and with water 35 feet deep. The ships would be drawn through by an electric locomotive line. It was stated by the witnesses that they had secured estimates which convinced them that the tunnel work could be done at a cost not exceeding 87 cents per cubic yard and they estimated that the entire canal could be constructed at an aggregate cost of from $75,000,000 to $90,000,000. They said that the granite in that section is perfectly sound and added that in case there would be placed terms where it was not found to be so the walls could be lined. The witnesses estimated that the tunnel could be completed in three years' time. When asked to make a proposition to the government they declined to do so, but said that within three years they would be able to state the terms under which they would allow the canal to be constructed by this route. The terms they thought would be that they should retain ownership of the canal and that the government of the United States should agree to pay 50 per cent. of the cost of construction, payments to begin when $10,000,0000 of work shall have been completed and other payments to be made each time that $10,000,000 worth of work is done. They also said, in reply to questions that they had secured neither the right of way nor government concessions. General Serrell said that at the inauguration of the late President McKinley, he had approached representatives of the Nicaraguan Canal company, representing the Nicaraguan route and also representatives of the Panama company. Ex-Secretary Werner Miller, he said, had expressed his surprise at the advantages presented by this route and had professed willingness to make further arrangements looking to its acceptance. The Panama Canal company had not shown such willingness to come to

Wade Called and Took the Money

E. E. Wade yesterday received the money authorized by the city council in payment for the Seven Lakes reservoir site. The warrant which was issued by City Auditor Harris on Thursday was cashed at the First National bank, where it was on deposit, until City Attorney Shenefor approved the title to the Seven Lakes property. This was done yesterday and Mr. Wade received the money.

The money was paid from the fund created for the purchase of the reservoir site by a bond issue.

Special to the Gazette.

Cripple Creek, Jan. 17.—The deeds showing the transfer of the Seven Lakes reservoir site on Pike's Peak from Edgar E. Wade to the city of Colorado Springs were filed today with the county clerk as follows: Clara C. Plumb to E. E. Wade, one half interest in the s ½ of the ne ¼ of sec 5, t 15, s of range 68 w, and the s ½ of the se ¼ of sec 32, t 14, s of range 68 w, stamps indicate consideration of $10,500. J. F. Vaile to E. E. Wade the w ½ of the ne ¼ of sec 4, t 15, s of range 68 w, together with water rights; stamps indicate consideration of $14,500. Leona Howbert to E. E. Wade, her interest in the e ½ of the ne ¼ of t 15, range 68 w, and the s ½ of the se ¼ sec 32, t 14, range 68 w, $1. Leona Howbert to E. E. Wade, ½ interest in the s ½ of the se ¼ of sec 32, t 14, s and the s ½ of the ne ¼ of sec 5, t 15, s, all in range 68 w, stamps indicate consideration of $14,500. Edgar E. Wade to the city of Colorado Springs, the Log Cabin, Lone Pine Valley, Dead Lake, and Small Star Placer claims, together with water and water rights, two quit claim deeds to water rights and to the Seven Lakes storage reservoir were filed. The principal deed is as follows: Edgar E. Wade to the city of Colorado Springs, the s ½ of the se ¼ of sec 32, t 14, s and the s ½ of the ne ¼ of sec 5, t 15, s; lots 3 and 4 of the nw ¼ of the s ½ of the nw ¼ of sec 4, t 15, s; the w ½ of the se ¼ of sec 4, t 15, s; all of range 68 w of the 6th p. m., consideration $60,000.

DESERTED BRIDE OF THREE MONTHS

Millionaire's Son Left Wife Penniless and Borrowed Money Before He Left Town—Warrant for His Arrest.

John T. Slaughter, son of a millionaire Chicago commission merchant, deserted a bride of three months in Colorado Springs on Monday and left town after borrowing money from most of the acquaintances he had made during his residence of six months in this city. Among his creditors victims was an old man who had entrusted his savings to Slaughter, who fled with the entire amount. A warrant has been issued for the alleged forgery's arrest, but he is believed to be in Canada by this time.

Slaughter's father is J. A. Slaughter, one of the best known commission merchants of Chicago. The story was thought to have been disowned by his father, but he frequently told people here that he received remittances from the merchant.

The younger Slaughter is about 28 years old, short, dark complexioned and smooth shaven. He came here about six months ago and was given employment at Carpenter & Draper's store, 30 North Tejon street. He is an expert meat cutter and commander a good salary. While employed at the store he made the acquaintance of Clifford Garnet, son of Dr. A. H. Garnet. Mr. Garnet was one of those who gave Slaughter money.

In the latter part of October Slaughter quit work at the store. He met a young woman from Iowa and fell in love with her. They went to Wyoming and were married, and returned to this city to live. They resided at No. 708 North Corona street.

Last Saturday Slaughter went to Denver, where he is said to have passed a bogus check on the St. James hotel. He returned here Sunday and left again, this time apparently for good. He left his young wife penniless and she is now at the home of Dr. Garnet, awaiting funds from Iowa to take her home.

Some time before Slaughter fled he mortgaged a horse and buggy for $200 from E. H. Dawson, who has an office in the McIntyre block. He secured a loan of $140 from Mr. Dawson and then is said to have made away with the team. After he left, Mr. Dawson swore out a warrant before Justice Tuthy for his arrest, and the police now have the warrant.

Thomas Poland, 60 years old, was one of Slaughter's friends. He was a patient in the hospital and had saved about $87 in cash and 100 worth of mining stock which he intended to use to pay for admission into an institution for old people. He gave Slaughter the money and stock and the millionaire's son is said to have stolen all.

From a friend at the Antlers hotel Slaughter borrowed $100 and a shotgun. He kept the money and pawned the gun for $25. This victim is now out of town.

Clifford Garnet loaned Slaughter $40 when Slaughter did not return before he departed.

And there are said to be other victims.

While he lived here Slaughter led a high life. He drove fast horses, owned valuable dogs and borrowed money.

The Western Mining Development company of Philadelphia, capital $1,500,000, to acquire mines and mining right in Wyoming and Utah and to develop the same, was incorporated in Delaware yesterday.

Oil has been encountered in another well in the Sunset field.

SOAP DIGNITY.

IT IS easy to find a pure soap; it is easy to find a cheap one. The problem is to find both combined; a soap that is pure yet inexpensive. Ivory Soap is the best solution of that problem. It is an original product, evolved after years of experiment and research. It is the most of pure soap for the least money. It stands approved to-day by a second generation of Ivory Soap users.

CRIPPLE CREEK NEWS NOTES

Ravedy Has Brought Suit for Damages—Some Other Notes.

Special Dispatch Bureau Colorado Springs Gazette

Cripple Creek, Jan. 17.—Nicholas T. Ravedy brought suit in the district court today to recover $30,250 damages from John and Harry Buxanes for injuries. The complaint sets forth that on January 7 the defendants violently and maliciously assaulted the plaintiff, striking him on the head, face, shoulders and side with a revolver and a rifle. He also alleges that they tore his clothes. Ravedy claims that as a result of this assault which was done with intent to kill the defendants broke two of his ribs, fractured his skull, broke the drum of its right ear, knocked out several teeth, and injured his right eye so badly that the sight is impaired. He further states that he has been confined to his bed since the assault and that he will be confined there for several weeks to come. The plaintiff was assaulted by the two men names as defendants while in the company of L. J. Cella. The assault took place in Arenna gulch where Ravedy had served a subpoena on Gus Polis, a Greek. J. J. McFeely is attorney for the plaintiff.

John Buxanes was yesterday released from jail upon furnishing a bond of $20,000. His brother Harry is still in the county jail. Today John Buxanes was again placed in jail upon a warrant sworn out by L. J. Cella charging Buxanes with having threatened to kill him. The bond in this case was fixed at $500 and a hearing set in Justice Harrington's court.

A distinguished party of visitors spent two hours in the district today. The special car Nomac arrived in the city this afternoon at 2 o'clock and on board were Lord and Lady Gordon-Lennox, Moreton Frewen, ex-Senator Wolcott and President Howbert and Vice President Lennox of the Short Line. Arriving in this city, the party boarded a speech car over the low line dry sign of the electric road. They took in the sights of the district from the car windows and upon reaching Victor, came back over the same road to this city. The special car with the party aboard was attached to the regular 4 o'clock train and left at that hour for Colorado Springs this afternoon. They are on a trip to Glenwood Springs and the western part of the state.

The members of the school board are of the opinion that they are "bucking" a coal combine. Bids, recently advertised for by the board for the furnishing of coal to the schools of the district were opened at the special meeting of the board held in the secretary's office tonight. Bids from the Keith-Grube company, the Scott-Burton company, the McLain-Hartig company, S. C. Messer, the Colorado Trading & Transfer company and the Cripple Creek & Transportation company were opened and each and every bid was found to be almost identical with all the others. Not one of the bids showed a reduction in the price now being paid by the district for coal. The bids were laid upon the table and the meeting adjourned until next Wednesday night at 7:30 o'clock. A bill from the Ramona G. M. company for $100 rent was turned over to the attorney of the board for investigation. The rent is alleged to be due for a portion of the ground upon which the Elkton school stands. The board gave the committee on grounds power to purchase a pedestal for the bust of President McKinley, recently purchased for $75 by the children of the Placer school.

The three men arrested yesterday believed to be implicated in the attempted robbery of the Independence mine, are still confined in the county jail. It is stated that one of the men has made a full confession in which he implicates six other men. Sheriff Robertson is working upon the case and until there is no doubt about the guilt of the men, he will give out no news.

A mining deed was filed with the county clerk today in which the Yorktown G. M. company transfers to the Colorado Mines Consolidated company the Baltimore, Lillie Stella and Yorktown lodes, survey No. 9612, and the Pocahontas lode, No. 16318. The revenue stamps indicate a consideration of $6,500.

A marriage license was issued today to Chester J. VanSlack, aged 21, and Nettie R. Shannon, aged 18 years, both of Victor.

Out of town arrivals at the National hotel today were: W. McMillan, Miss M. Ernhart of Colorado Springs; C. W. Gantley, J. W. I. Prosser, J. H. Bryan and H. O. Hendricks of Denver; Arthur H. Ehle of Kansas City; G. K. Gray of St. Louis, and S. M. Greenbaum of Chicago.

Rewards Many Inventors

Throughout a great nation of eighty million it is a desperate struggle to secure even a recognition for a new article, to say nothing of achieving popular favor.

and yet within one year Stuart's Catarrh Tablets, the new catarrh cure, has met with such success that today it can be found in every drug store throughout the United States and Canada.

To be sure, a large amount of advertising was necessary in the first instance to bring the remedy to the attention of the public, but everyone familiar with the subject knows that advertising alone never made any article permanently successful. It must have, in addition absolute, undeniable merit, and this the new catarrh cure certainly possesses in a marked degree.

Physicians, who formerly depended upon tablets, sprays and local washes or ointments, now use Stuart's Catarrh Tablets because, as one of the most prominent stated, these tablets contain in pleasant, convenient form all the really efficient catarrh remedies, such as red gum, blood root and similar antiseptics.

They contain no cocaine nor opiate and are given to little children with entire safety and benefit.

Dr. J. J. Reiliger of Covington, Ky., says: "I suffered from catarrh in my head and throat every fall, with stoppage of the nose and irritation in the throat affecting my voice, and often resulting in the stomach, causing catarrh of the stomach. I bought a 50-cent package of Stuart's Catarrh Tablets at my druggist's, carried them in my pocket and used them faithfully, and the ways in which they cleared my head and throat were certainly remarkable. I had no catarrh last winter and spring and consider myself entirely free from any catarrhal trouble."

Mrs. Jerome Ellison of Whitebug, Wharton county, Texas, writes: "I suffered from catarrh nearly my whole life and last winter my two children also suffered from catarrhal colds and sore throat so much they were out of school a large portion of the winter. My brother who was also cured of catarrhal deafness by using Stuart's Catarrh Tablets, urged me to try them so since that I did so, and am truly thankful for what they have done for myself and my children. I always keep a box of the tablets in the house and at the first appearance of a cold or sore throat we nip it in the bud and catarrh is no longer a household affliction with us."

Full sized packages of Stuart's Catarrh Tablets are sold for 50 cents at all druggists.

Send for book on causes and cure of catarrh, mailed free. Address F. A. Stuart Co., Marshall, Mich.

GOLDFIELD

Special to the Gazette.

Goldfield, Jan. 17.—The old employes of the Steelsmith lease on the Findley where recently expired, surprised William Allister at his home on Wednesday night, and after making this gentleman believe that they had a grievance against him, they presented him with an elegant gold watch. William Gray made the presentation speech and, although overcome by the surprise, Mr. Allister responded in a few words.

The Goldfield volunteer firemen went to Independence tonight and attended the smoker given by the firemen of that town. The local boys report a very enjoyable time.

Roland O'Flaney entertained about 20 of his schoolmates at his home on Independence avenue Wednesday evening. The party was given in honor of his fourteenth birthday.

A meeting of the Methodist ministers of the district was held at the M. E. church last evening. Church work was discussed; Rev. Mr. Powell of Victor, delivering the address of the evening.

Grand Master B. F. Ackerman of Aspen, will pay an official visit to Goldfield Lodge No. 124, I. O. O. F., on Wednesday evening, January 22. The degree work will be exemplified, after which an elaborate banquet will be partaken of.

The recently organized glee club held its first meeting at the home of William Gifford on Wednesday evening.

Mrs. Emma Merryfield, who has been visiting her husband at Buena Vista for several months has returned home.

L. P. Williams has returned from a trip to Mexico and Arizona.

FLORENCE

Special to the Gazette.

Florence, Jan. 17.—A macaroni factory has been established at Coal Creek, a coal mining town southwest of here. The company is composed of Italians and the machinery was imported express, for the factory from Indiana, Italy. The freight alone amounting to over $2,000. Ten varieties of food are being made, and shipped to all parts of the country. The orders already are taxing the plant.

Mass meetings of the farmers at Greenwood, Hardscrabble and Wetmore farming districts are to be held tomorrow night to interest the farmers in the proposed sugar factory at this place.

Two of the Cripple Creek companies which are drilling for oil in Webster Park have attained a depth of 1,000 feet. At 700 feet quite a little oil was opened up, but the quantity was not sufficient to put the well to pumping. It has only been in the last few months that this district has attracted the attention of the oil investor, and when oil is struck a big rush for land is expected to be made. The people of Florence are watching development.

VICTOR NEWS NOTES

Two Miners Evaporate in Smoke at the May B. Property.

Special Dispatch Bureau Colorado Springs Gazette

Victor, Jan. 17.—John Warner and Gus Peterson, miners employed at the Davis & Bentley lease upon the May B. property of the Columbine-Victor company on the south slope of Squaw mountain, while working in a drift in the 400-foot level this morning at 10 o'clock, were overcome by gas and died from the effect of it before assistance could reach them. Coroner Caldwell will impanel a jury and hold an inquest over the remains at Dunn's undertaking parlors in Victor tomorrow afternoon at 3 o'clock. State Mine Inspector Clifford states that he will examine the workings of the May B. and probably order changes to keep the workings free from the deadly carbonic acid gas, which for the first time today made its appearance in the property.

The two unfortunate men went on shift this morning about 7:30 o'clock. They were lowered down the shaft 200 feet below the adit level. About 10 o'clock the engineer heard the bell ring once and then twice. The engineer waited but the third stand never came. Mr. Davis, one of the lessees of the property, was conversing with the engineer at the time and advised him to raise the bucket slowly. The engine was started but the cable refused to move. Realizing that something had happened, the engine was stopped and the two men entered the shaft by ladders. When they reached the buckets they were horrified to find the dead body of John Warner doubled up in it. At the bottom of the shaft Gus Peterson was found dead. A bruise on the side of the face and a broken leg led to the conclusion that he had dropped from the bucket.

It is the opinion of the mine management that what the men were at work on the drift, they encountered foul air and recognizing the fact that they would die if they stayed where they were, they made an effort to reach the shaft. Nearly overcome by the foul gases they struggled to the drift and more dead than alive reached the shaft unaided the engineer to hoist. Warner, partially overcome by the foul air, had reached the bucket, and it is more than likely that when death came to him he was endeavoring to hold his companion in it. From the nature of the circumstances, it is supposed that Peterson's body was only partially in the bucket, and that when the engine started to lift, the body caught on the timber and blocked the progress of the bucket upward. When the engineer stopped his engine, the cable relaxed and Peterson's body fell down the shaft a distance of 30 feet. It is very probable that Peterson was dead before he fell from the bucket. The bodies were hoisted to the surface and Undertaker Dunn removed them to his morgue in Victor. The victims of this terrible affair are both about 30 years of age and single. John Warner lived alone in his cabin in Kelpie gulch and but little is known of his relatives. Peterson has resided in Victor for some time past and lived on South Third street. He was a member of the North Star club and was a member in good standing of Miners union No. 10 of Butte, Idaho. Friends of the dead miners have been notified and funeral arrangements will be made when they are heard from.

Charles Craine, who was arrested several days ago suspected of being one of the men who robbed the Tomasina Mercantile company's store, made his "get away" from the city jail this morning. Jailer Murphy had Craine out to work carrying coal. The man brought the first scuttle full, but when he went for the second one, he failed to return. There is little or no effort made to recapture Craine, as the evidence against him was only circumstantial.

Kale F. Owens died last night at his home on Spicer avenue after a 10-days illness of pneumonia. Deceased was a popular young man of this city and served in the Philippines during the Spanish-American war, receiving an honorable discharge. He was 30 years of age and has been married about two years. His young wife has the sympathy of the entire community.

CLENCO LETTERS ARE NOT DELIVERED WELL

Special to the Gazette.

Souder, Jan. 7.—The McKenzie well, owned by the Souder Oil Co., came in about 2 o'clock this morning. One of the men working on the drill, hurried into town and notified the company's representative. There was a big rush to the well this morning.

The McKenzie well is about half a mile nearer town than the Arnold well, but is in the same general direction. Oil was struck at a depth of 2,500 feet, 500 feet nearer the depth of the Arnold. There is now about 50 feet of oil in the hole and drilling still continues. The McKenzie well is 3 miles southeast of Florence, nearer than the Arnold. Four barrels of almost pure oil were taken out with the bailer when the oil was first discovered.

The excitement on the streets today was the highest yet. Souder has been slow to realize the prosperity at her doors but is gradually awakening to a realization of what the Florence and Colorado Springs capital has furnished the enthusiasm and the capital so far. Colorado Springs capital is heavily interested in the Souder Oil Co., which owns the McKenzie well. S. S. Lawson and W. [illegible] ton are officers of the company.

STOCK EXCHANGE REVIEW

By Associated Press.

New York, Jan. 17.—R. G. Dun's weekly review of trade tomorrow will say:

Readjustment of prices continued during the second week of January and the general average reached a much lower point than prevailed when the year opened. Nothing has transpired to disturb the bright outlook for the steel industry.

Footwear producers have at least made a general advance of some 2½ to 5 cents. Wholesalers have not altered lists. Hides are weaker, which is natural at this season.

Woolen goods opened lower than expected and purchases were retarded rather than stimulated by the declines. Changes were few, yet there had been such confidence in a higher level that the trade has latel[illegible]

Failures for the week numbered 334 in the United States against 335 last year and 40 in Canada against 43 last year.

BRADSTREET'S REVIEW

By Associated Press.

New York, Jan. 17.—Bradstreet tomorrow will say:

The usual "January thaw" in prices arrived this week and securities, food products particularly the cereals, pork and dairy products, coffee and sugar among the grocries and copper among [illegible]

NEWS NOTES FROM DENVER

Funeral of Dr. Parkhill Will Be Held on Sunday—Snowfall Was Not General.

Denver Bureau Colorado Springs Gazette

Denver, Jan. 17.—William H. Howard, who was arrested here last night, is wanted in Chicago for embezzling $4,500 from the Clinton Wire Cloth company. Detectives have been sent to take him back.

The first snow which has fallen in a number of weeks began early this morning and continued throughout the day. It melted as rapidly as it fell. Reports from over the state do not indicate that the storm is general. Salida is the only town reporting a heavy fall. The weather bureau promises fair weather for tomorrow.

Frederic Faucett, a negro, was arrested this morning on the charge of burglary. He is wanted in Columbus, Ohio, where it is alleged he stole $3,000 worth of diamonds. At one time he was convicted for the theft, but escaped while on his way to the penitentiary. He escaped from the officers this morning while they were taking him to the county jail, but he was later captured.

Two of the machine companies in this city went before the county commissioners this morning and asked protection from the striking machinists. They said the machinists won't let them work their shops and that they would hold the county commissioners responsible for all damage.

Albert Klenke, who was stabbed during a quarrel at 2014 Larimer street last Monday night, died at an early hour this morning. The charge of murder has been placed against John Musselman, who it is said stabbed him.

Governor Orman still holds the report of the committee on the condition of affairs at the Golden industrial school for boys. He refuses to make it public. The local administration paper published an alleged synopsis of the report this morning, but the members of the committee who investigated the school claim this is not correct. The committee, however, refuses to say what the report did contain. So long as the report is not given out and no evidence is introduced to offset them, the charges remain undenied and the cruelties of the worst kind are practiced against the inmates of that school.

The death of two of Denver's most noted physicians yesterday came as a shock to the entire community. It is a strange coincidence that parents of both succumbed to the disease they had made a specialty. Dr. Eskridge was a nerve and brain specialist. He died from the effects of a collapse of his nerves. After spending his entire life in helping others affected with nervous trouble, himself he could not cure.

It was at first announced that Dr. Parkhill died of Bright's disease of the kidneys, but an autopsy revealed the fact that he died from an abscess for not about the appendix. As a physician he was known as a great student of appendicitis, and yet he also succumbed to the disease he so carefully studied.

Judge Lindsley today adjourned the county court for 24 hours out of respect for the physicians. Resolutions were adopted by the medical men today regarding the death of the men. The funeral of Dr. Parkhill will be held Sunday and will be military in character, attended by the local companies of the state militia. Governor Orman will also attend but he has not decided whether or not he will go as a private citizen or with his staff as governor.

CANON CITY

Special Correspondence.

Canon City, Jan. 16.—The following particulars of last season's fruit crop are authentic:

The apple crop in Fremont county bought by eastern buyers amounted to 60,000 barrels, the great bulk of these were grown in Canon City and vicinity. One party here sold his crop for $50,000. Many of the growers have not yet sold their crop and are holding it for the higher spring prices. The great bulk of apples grown here are Ben Davis, Jonathan, Winesap and Yellow Transparent. There have been marketed here 10,000 barrels of apples, 80,000 baskets of grapes, 12,000 crates of strawberries, 5,000 crates of raspberries and other small fruits. The prevailing prices all season were excellent and this crop represents an immense amount of money brought into the town.

Houses are very scarce and hard to rent, notwithstanding the fact that over 100 have lately been built, rents are good in Canon City and no better investment to outside capital than building a few houses in this vicinity to rent.

County Treasurer C. J. Frederickson, who has been much maligned and condemned by his house lately is recovering.

Miss Gretchen Harding who has had typhoid fever is now quite recovered.

The annual meeting of the Canon City Brick and Tile company was held at the company's office on Monday, an excellent year's work was reported and an average output of brick for the year has been about 200,000 brick per working day. Charles Paul was elected president; P. P. Steinwandel, vice president; W. H. Trout, secretary-treasurer and general manager.

The various markets in the city have for sale green spinach, grown in the open air near the soda springs. There are few other places in the state where this can be done.

Ernest Wilton, while turning from Orchard avenue into Main street on his bicycle, collided with a pair of horses attached to a surrey. He was carried some distance on the neck yoke and then fell to the ground, the horses and carriage passing over him but he escaped uninjured. The team was badly frightened and ran away, and soon broke loose from the carrey. The contents of the vehicle were scattered along the road, but both the occupants escaped uninjured.

David Robison has gone to Arizona to go on a ranch there. He will probably be absent some months.

Mrs. Hunter Palmer and Mrs. Koch gave a large dancing party at the Elks hall on last Monday evening.

John Scott who has spent two years here has gone to Black Foot in Idaho.

S. F. Atwater has returned from a short business trip to Denver.

During the year 1901 about $90,000 has been spent in new public buildings, about $250,000 in new business blocks and $300,000 in private dwelling houses, making a total of some $640,000. In a town of 10,000 people this is a great record and Canon City may well lay claim to be one of the most rapidly growing cities in the west.

The projected improvements for the year 1902 will amount to an even larger sum total than above mentioned.

Arrangements are being made for the dedication of the new Presbyterian church on Sunday January 26. Rev. A. C. McMillan, the former pastor is now here to take part in the exercises.

How beautiful all the "little" things of life when we see more of divinity in the human! Straightway we learn there are no "little" things. It is the human consciousness, untransformed by divinity, which belittles or magnifies until all right proportion is lost. The word waits, creation waits, for the anointing of our blind eyes.—Trinities and Sanctities.

FIXED THE FAMILY

Grape-Nuts Set Them Right.

It is better to have a food epidemic in a family than an epidemic of sickness. A young lady out at Hibbing, Minn., tells about the way Grape-Nuts won her family. She says: "When recovering from typhoid fever my doctor ordered Grape-Nuts Breakfast Food. I gained four pounds the first week, and as the package was kept on the table for me, the whole family started to eat the new food.

"We soon noticed a difference in my younger brother's face, which had been pale and bloodless, and who had been suffering from chronic inflammation of the stomach. In a short time he began to eat so heartily that we all remarked about it, and before long he got so he could eat anything without the least bad effect.

"We often eat Grape-Nuts dry as we would eat candy or nuts, and it has a richer taste than when soaked in water. The best way is to put on some good, rich cream.

"My sister found that after we began eating Grape-Nuts she had a much greater supply of milk for her babe. We have quit eating hot meat and meat for the evening meal and take in place some nice Grape-Nuts, with cream, and a little fruit, and have all improved greatly in health."

"Please don't publish my name." Name can be given by Postum Co., Battle Creek, Mich.

TO BE WELL

To be well! Leave Coffee, Use POSTUM. BOTH!!!

Stops the Cough and Works Off the Cold.

Laxative Bromo-Quinine Tablets cure a cold in one day. No cure, no pay. Price 25 cents.

In an American Street Car.

Park 'em in,
Wedge 'em in,
Whack 'em in,
Edge 'em in,
Jack 'em in,
Sledge 'em in!

Any way to get 'em in.
They run the cars for the public good
And don't want them full of solitude
So they stuff them full of people, and
If they don't get seats they have to stand,
Stand in the aisles and hang to straps,
Stand on the toes and fall on the laps
Of people who wonder what they've done,
That they should be thus imposed upon.
Stand in the open cars before
People who will not stand much more,
People who pay their way and ought
To have the rights which they have bought,
While conductors yell, "Move forward, there."
Stand on the platforms, stand anywhere,
But they can't move forward very far
For they're packed to a standstill in the car.

—(Weekly Scotsman.)

SUNDAY SPECIAL VIA THE SHORT LINE LEAVES COLO. SPRINGS 8:30 A. M., SUNDAY, JANUARY 19TH.

Round trip is only 80 cents, and you see something on The Short Line.

QUICK TIME TO CALIFORNIA. Take the Santa Fe Limited train. Leaves Colorado Springs daily. No extra charge for tickets.

25 cents to Cripple Creek by the Colorado Midland railway.

BANK CLEARINGS.

New York, Jan. 17.—The following table, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended January 16, with the percentage and decrease as compared with the corresponding week last year:

		P.C. Inc.	P.C. Dec.
New York	$1,509,837,298	....	17.7
Chicago	171,342,833	18.1	....
Boston	156,062,234	....	1.0
Philadelphia	118,750,000	10.2	....
St. Louis	33,295,105	28.2	....
Pittsburg	45,061,382	17.1	....
Baltimore	24,813,101	....	....
San Francisco	25,740,471	13.6	....
Cincinnati	21,749,600	2.9	....
Kansas City	21,108,149	17.8	....
Minneapolis	11,910,561	11.2	....
Denver	5,098,317	4.0	....
Salt Lake City	3,501,001	1.4	....
Colorado Springs	590,167	....	10.
Totals, U. S.	$2,131,853,063	....	6.7
Outside N. Y.	954,015,765	13.0	....
Totals, Canada	10,616,194	14.4	....

The London Market.

By Associated Press.

New York, Jan. 17.—Commercial Advertiser's London financial cablegram: There was a pause in activity on the stock exchange today and enthusiasm was dampened by Lord Salisbury's declaration that negotiations looking to the termination of the Boer war were on foot. Consols fell ⅜ to 94, on the issue of £2,000,000 local loans on 3 per cent. stock at 99, but that money is plentiful is shown by the result of the Cape loan which has been subscribed twice over. American stocks were dull and lower all day but in the street New York bid up the coulers and Union Pacific a point. Copper was steady at £46⅞ the ton.

Money is easy and the bank may reduce the discount to 3½ per cent. if the next return is good. The present rate is 4 per cent, with the market demand weak at 3 per cent. This tends to keep the bank rate.

Coffee Market.

By Associated Press.

New York, Jan. 17.—Coffee—Spot Rio, easy; No. 7 invoice, 6 7-16; mild, quiet; Cordova, 7½@11.

PELTA'S

DOG FRIGHTENED TWO BURGLARS

Robbers Frustrated in Attempt to Plunder Two North End Residences.

Two burglars who attempted to break into the residences of Edwin Arkell and Mrs. Lizzie Hutchinson at Nos. 1820 and 1822 North Tejon street, respectively, early yesterday morning, were frightened away from both places before they could secure any plunder. They managed to create a little excitement before they decided to give up their efforts and now he police are trying to find them.

About 2 o'clock yesterday morning Mr. Arkell was aroused by an unusual noise. He looked out of his bedroom window and saw two men evidently trying to open a window on the first floor at the north side of the house. The burglars heard Mr. Arkell, and fled but soon appeared again in the yard of the residence of Mrs. Hutchinson, at No. 1822.

Mr. Arkell, who was watching them, went down stairs and released the watch dog. The dog soon located the strangers and barked. The burglars swore at the dog a few minutes and then departed for a second time.

Mrs. Hutchinson was awakened by the barking of the dog and was told by Mr. Arkell of the thieves. She made an investigation and found that the would-be robbers had forced a key out of the lock in the back door of her home. They had been compelled to flee before they could gain an entrance.

Special Policeman Pooley was notified of the attempted burglary and he notified the police department. No arrests have as yet been made.

Passion Play Pictures Seen by Big Crowd

One of the largest assemblies that ever has ever been gathered in Pueblo witnessed the Passion Play pictures that were shown there last night. The crowd filled the entire house, the aisles, and even the entrance corridor was filled with people.

The scenes from the Passion Play as rendered at Oberammergau, in Germany, have attracted the attention of people of the great inspirational drama of the life of Christ. The attentive silence of the audience indicated that tense interest which might be termed enthusiastic gratification. At times, not a whisper of sound could be heard stirring the entire vast assembly, so deep was the interest. Crude and imperfect as the pictures were, the sublime lesson of the life of Christ was well depicted, and all the sermons ever preached are made as vivid a reality as the simple pictures of the great religious drama. Even a moving drama, it was at but the picture of another living picture, the vividness of the immortal tragedy seemed to impress itself upon the audience. However, until biography machines are improved to a more perfect state, there must always remain some dissatisfaction for the mechanical part of such entertainments is always such a strain to the eyes as to detract from the artistic merits of the most finished performance. The pictures shown last night were taken in 1900, during the last performance of the Passion Play at Oberammergau.

Appropriate intervals of religious songs and selections were rendered. The choir of the First Congregational church sang "The Day is Ended," during the exhibition of the scene, "Shepherds Watching their Flocks at Night." At "The Messiah's Entry into Jerusalem," Mr. George Crampton sang "The Palms," and when Christ was brought before Pilate, Mrs. J. S. Tucker sang "The Holy City." During the painful process of the cross to Mount Calvary, a quartet composed of Mrs. Garrison, Miss Crossey, Mr. Skinner and Mr. Hemenway sang "Must Jesus Bear the Cross Alone," and later on, during the picture of the ascension, the same choir sang "Nearer My God to Thee."

The performance last night was given under the auspices of the Christian Endeavor Union for the Y. M. C. A. building fund.

The performance of the Passion Play biography pictures will be repeated tonight. The attendance was so large last night that a great many people holding tickets were turned away. The same performance, with musical accompaniment, will be given tonight at Perkins hall.

Passion play pictures repeated tonight. Perkins hall. Tickets on sale at Foltz & Hardy's.

Good Doctors are Quick to See and Appreciate Real Merit in New Medicines.

Stuart's Dyspepsia Tablets are a discovery of great value to the medical profession and the public. They are an unfailing specific in all cases of dyspepsia and disordered digestion.

Almost everybody's digestion is disordered more or less and the commonest thing they do for it is to take some one one of the many so-called blood purifiers, which in many cases are merely strong cathartics. Such things are not needed. If the organs are in a clogged condition they need only a little help and they will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good. Purging is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and give the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets—give them needed help and you will have no trouble.

It's a common sense medicine and a common sense treatment and it will cure every time, not only cure the disease but cure the cause. Goes about it in a perfectly sensible and scientific way.

We have testimonials enough to fill a book but we don't publish many of them. However—

Mrs. E. M. Faith of Byrd's Creek, W. Va., says: "I have taken all the tablets I got of you and they have done their work well in my case, for I feel like a different person altogether. I don't doubt if I had not got them I should have been at rest by this time."

H. E. Willard, Onslow, Ia., says: "Mr. White of Canton was telling me of your dyspepsia tablets curing him of dyspepsia from which he had suffered for eight years. As I am a sufferer myself I wish you to send me a package by return mail."

Phil Brooks, Detroit, Mich., says: "Your dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia but am now entirely cured and enjoy life as I never have before. I gladly recommend them."

It will cost 50c to find out just how much Stuart's Dyspepsia Tablets will help you. Try them—that's the best way to decide.

All druggists sell them. A little book on stomach diseases will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.

Tickets on sale Way, via Rock Island today limit to Cripple Creek via Colorado Midland Railway.

25 cents to Cripple Creek by the Colorado Midland railway.

LOCAL WEATHER RECORD.

The following meteorological record is furnished by the Colorado college weather bureau. Observations recorded in local time:

Jan. 15, 6 p. m. to Jan. 16, 6 p. m.

Temperature at 6 a. m.	17
Temperature at 12 m.	50
Temperature at 6 p. m.	41
Maximum temperature	55
Minimum temperature	14
Mean temperature	37
Max. barometric pressure, inches	24.09
Min. barometric pressure, inches	23.71
Mean velocity of wind per hour	6
Max. velocity of wind per hour	10
Relative humidity at 6 a. m.	71
Relative humidity at 12 m.	49
Relative humidity at 6 p. m.	48
Mean relative humidity	56
Mean dew point	28
Precipitation in inches	0

WEATHER FORECAST.

Washington, Jan. 16.—Forecast for Colorado: Partly cloudy Friday, probably snow in western portion, colder Friday night, Saturday generally fair, winds becoming westerly.

Satisfied people wear Ashby's spectacles.

Dust proof rooms for storage. Furniture packed. Packed moving vans. Wancer & Lowe, 1.2 Pike's Peak.

PICNIC.—The children of the Vitis school enjoyed a picnic at Beaver dam yesterday.

MISSIONARY ALLIANCE.—The Christian Missionary Alliance auxiliary will meet this evening at 7:30 at 24 North Nevada avenue.

CHILDREN'S PARTY.—A children's party was given yesterday afternoon at the residence of Mr. and Mrs. James C. Connor, near Manitou.

CHURCH SOCIAL.—There will be a church social this evening at 7:30 at the Second Congregational church. All friends of the church are invited.

CHORUS REHEARSAL.—The chorus for the production of "Hiawatha's Wedding Feast" will hold a rehearsal tomorrow evening at Perkins hall.

DIED.—Baby Day, daughter of John Day, 715 South Nevada, Wednesday night, aged six months. Funeral today at 11 o'clock, conducted by Rev. D. W. Reed.

DIED.—Infant son of Mr. and Mrs. L. W. Atkinson, 926 East Costilla, aged eight months. Funeral today at 1 o'clock, service conducted by Rev. Mr. Fraser.

MRS. STRANGS' FUNERAL.—The funeral of Mrs. Isabel Strang will be held this afternoon at 1:45 from Grace Episcopal church. New York papers please copy.

MOTHERS' COUNCIL.—The meeting of the Pillside Mothers' council which was to have been held today at the home of Mrs. Atkinson will be postponed one week.

MARRIAGE LICENSE.—A marriage license was issued by the county clerk yesterday to Darius C. Eheart of Central City, and Annie M. Bone of Kimball, South Dakota.

NEW CLUB.—At a "stag" party at the home of Edward Hoyt Wednesday night a new social club was organized. Messrs. Hart and Epperson entertained the guests at the party.

WOMEN'S SOCIETY.—The Women's society of the First Presbyterian church will join its regular monthly missionary meeting this afternoon at 3 o'clock in the office room of the church.

MARRIED.—Miss Grace Hinebaugh and Mr. George Beal were married at the Spaulding house by Rev. Dr. C. B. Wilcox Wednesday evening. Mr. and Mrs. Beal left for an extended trip to the east.

TEACHERS TO MEET.—The weekly meeting of the teachers of the Sunday school of the First Presbyterian church will be held at 8 o'clock this evening at the residence of W. E. Kiel, No. 330 East Bijou street.

RECEPTION.—The reception by the Men's club of the First Congregational church, which was to have been held last evening, will be held tonight at the residence of Dr. Libbey, No. 812 North Cascade avenue.

DAUGHTERS OF REBEKAH.—Monte Rosa Rebekah lodge No. 4, I. O. O. F., will meet at 7:30 this evening. The degree staff is requested to be present as there will be work in the degree. Visitors cordially invited.

GOLF TOMORROW.—There will be a handicap golf tournament on the links of the Town and Gown club beginning at 2 o'clock tomorrow afternoon. The play will be at 18 holes. Entries will close at the club house at noon.

WOMAN'S AUXILIARY.—The Woman's auxiliary of the First Baptist church will hold their regular industrial meeting in the ladies' parlor this afternoon at 3 o'clock. There is work to be done and a large attendance is desired.

PROF. AHLERS' LECTURE.—Prof. Ahlers will lecture on Monday night in Perkins hall on "Lessing and the Reform of the German Drama." This lecture is the fourth in the university extension course and there will be no admission fee.

COTTAGE PRAYER MEETINGS.—The cottage prayer meeting in the southwest part of the city will be held today at 3 p. m. with Mrs. Fortner, 721 South Sahwatch. Elders Lennox and Chalgue will lead the meeting. All cordially invited.

MEN'S CLUB RECEPTION.—The Men's club of the First Congregational church will hold a reception at 8 o'clock this evening at the home of Dr. Libby, No. 812 North Cascade. Prof. Parsons will speak on the "Comparison of Swiss, English and American Life."

SELECTION OF FOOD.—The home department of the Woman's union of the First Congregational church will meet at the church this afternoon at 3 o'clock. Topic, "The Selection and Care of Food." The meeting will be in charge of Mrs. Dickinson. All interested are invited to attend.

HEADQUARTERS HERE.—Copies of amendments to the articles of incorporation of the Gold Deposit and Bonanza Queen Gold Mining companies were recorded yesterday at the office of the county clerk. Both companies have changed their business offices from Victor to Colorado Springs.

WARRANTY DEEDS.—Among the warranty deeds recorded yesterday were the following: Jennie B. Brown to Adah Davis, $3,700, lot 2, block 364, addition 2. Mary J. Jones to Otto Wehringer, $12,500, lots 1, 5, 6, 7, 8, 9, 10, 11, 13, 14 and 15, block No. 5, lots 5 to 8 inclusive, block No. 2, lots 1 to 12 inclusive, block 3, lots 5 to 7 inclusive, block 4, Cheyenne Heights.

PRINTERS' HOME INMATES FIND BOGUS WATER

The inmates at the Printers' home have caught the fever of putting down a well to see what there is under the ground and they have already met with such success as to cause general satisfaction with the effort that they have made.

The supposition heretofore has been that there was no water under the site of the Printers' home unless at great depth, the home being situated on very high ground, and no effort has been made to ascertain whether or not the supposition was correct.

A few days ago, however, some of the inmates at the home began boring in the ground not far from the building and the result was that when their bore was about 32 feet deep they encountered a flow of water that seems to indicate enough to supply as big a well as the management of the home can desire to put down.

Steps will be taken at once to make the new water supply available for the home.

Passion play pictures repeated tonight. Perkins hall. Tickets on sale at Foltz & Hardy's.

J. W. Spencer, 189 Corso Umberto I.....Rome

The Gazette is delivered to regular subscribers by early morning carriers in Denver, Boulder, Cripple Creek, Victor, Pueblo, Canon City, Florence, Colorado Springs, Manitou, Colorado City and Broadmoor and can be obtained from the newsboys and at the news stands in each of the above places.

OIL DEVELOPMENTS IN COLORADO.

TWO RECENT oil discoveries in the state are of prime importance to the general interest. The first of these took place in the north central portion in the county of Boulder and near the town of that name. The geological formation at this point is similar to that at Florence, and the strike there is an indication that oil may be found along the eastern foot of the mountains wherever the local conditions are favorable to its collection. If the rocks are broken or inclined so that the oil runs away instead of accumulating in a reservoir, of course the particular strata where it is formed will be barren at that point. But favorable conditions undoubtedly exist at many other places besides Boulder and Florence. The recent discovery will serve to stimulate prospecting and Larimer, Boulder, Weld, Jefferson, Arapahoe, Douglas, El Paso, Pueblo, Huerfano and Las Animas counties may be considered as offering a fair field for enterprise along this line.

The other discovery of oil was made at De Beque, which is located on the Grand river in the northern part of Mesa county and about 25 miles northeast of Grand Junction. This discovery is not less important than the one at Boulder. De Beque is situated near the southern border of an oil territory, which extends across the western end of four large counties, Mesa, Garfield, Rio Blanco and Routt, in Colorado, and across the lines west into Utah and north into Wyoming. The development of this field offers a magnificent opportunity for prospectors and investors, and it will in time come to be one of the great resources of the state.

Strange as it may appear, these two immense oil territories do not comprise all the possibilities of the state in this line. Another field is known to exist in Archuleta county, the boundaries of which have not as yet been determined, and there are others by other fields in other parts of the state.

The discoveries that have been made within the past year at De Beque, Boulder, Pagosa Springs, and elsewhere occasion no surprise to those familiar with the geological features of the state. They do go far to verify the hopes and anticipations that have been formed, and there is little doubt that succeeding discoveries will carry out still further the anticipations of those who expect to see one of the great oil-producing regions of the country opened up in Colorado.

WE ARE THE GOLD COMPANY.

SEVERAL times recently the remark has been made that the Colorado Springs brokers did not put the gold in the ore, and the inference intended to be drawn from this remark is that no great amount of credit is due to the Colorado Springs mining promoters for the growth and the development of the Cripple Creek district.

Of course the remark is absolutely true. The brokers did not put the gold in the rock, and they did not add or subtract a single particle from the amount in the eternal hills.

But it is equally true that if it were not for the brokers and the mining men of Colorado Springs the gold that was in the Cripple Creek mountains would have remained there, and the district would have remained as little known and as unproductive as other districts in the state that have failed to receive the proper means for their development.

There is hardly a mine in the district, with two exceptions, the Independence and the Portland, that could have furnished the money for its own development. Outside capital was a necessity for the opening of the mines, and it was the Colorado Springs brokers, beyond any question, who secured the sums necessary to sink the shaft houses and the railroads, to buy the machinery and to build the mills and the reduction works that were required before the gold in the rocks could be made available.

It is not the gold in the rocks that has made Cripple Creek great, but the gold that has come out of the rocks. It could not have come out if it was not there, to be sure, but it could not have come out if there was not invested capital to bring it out, and if there were not men with the acquaintance and the ability to secure the attention and the interest of capitalists.

There is too much of a disposition at the present time to deny the services to those who have promoted the development of Cripple Creek. There is no desire on our part to claim that they are "the whole thing," but they certainly are entitled to a large measure of credit for what has been accomplished, and the Gazette at least will never hesitate to give them recognition for what they have done.

The richness of the Cripple Creek rocks is the material out of which its greatness has been built. The hand that reared the structure and planned it was the hand of the Colorado Springs promoter and the instrument with which he worked was the incorporated mining company.

MULES AND MILITARY SUPPLIES.

A RENEWED EFFORT is being made to have the United States government buy mules for military supplies and therefore not include among the things that may be sent from a neutral nation to a combatant in time of war.

It would doubtless be a severe check upon British operations in South Africa if the imperial authorities could not draw upon the United States for supplies of mules and horses. The military operations in that country must necessarily be carried on by cavalry, and the climate and conditions are such that the animals taken there are available for service for only a very short time. It would be a much more difficult task to subdue the Boers if the supply of American mules and horses were not continued.

Undoubtedly the prevailing sentiment in the United States is against doing anything more than is necessary in the way of helping England to conquer the South African republics, and the American people as a whole would be willing to forego their sales on this account if by so doing they could give assistance to the brave Britons. The question, however, has a larger aspect.

We are to establish the principle that the British agents cannot purchase horses and mules in this country and ship them to South Africa at the present time, we must necessarily take the ground that such shipments shall not be made to warring nations in the future. And if we shut off the export of horses and mules on the ground that they are military supplies, we may be obliged to extend our definition to other things of which we have a surplus and which other nations may in times of emergency be willing to purchase in large quantities.

The general interests of the American people are against such a course. We are a nation of producers. We have surplus products to dispose of in ordinary years, and we have a practically inexhaustible supply upon which other nations may draw in times of an emergency. We get much better prices for our products in time of war than we do in time of peace, as is shown by the fact that the British purchases of horses and mules have raised the price of these animals in all the western states, and have done a great deal of good to our western farmers.

Further than that, while at the present time it seems that it is opposed to our principles and ideas to continue the shipping of these animals to be used against the Boers, yet the next time the case is brought up the conditions may be different. Suppose, for instance, that the Boers had access to the sea coast. Suppose that it was they and not the English who needed these animals to keep up the fight. Suppose that it was a weaker nation which found it necessary to draw upon the resources of the great republic in order to continue its struggle against an overwhelming force. We could not apply the rule in one case and disregard it in another. If we decide to extend the meaning of the term military supplies so as to stop British purchases at the present time, we will be obliged to prevent anything of the kind on the part of other nations in the future.

The question is a large one, and it deserves careful consideration. The American people will be slow, however friendly they may feel toward the Boers, to place themselves to a course of action that will be most injurious to their trade in future years and that may compel them to do a grievous injury to some cause they may cherish in the future, even though this course might now seem consistent with their present desire.

THE LARGEST INSURANCE POLICY.

THE LARGEST insurance policy ever written is said to be that carried by the late Frank H. Peavey of Minneapolis. A recent number of the Weekly Statement, an insurance paper, contains the following in regard to this policy:

Mr. Frank Hutchinson Peavey, of Minneapolis, Minn., made application to the Mutual Life Insurance company of New York on the 17th day of April, 1900, for a policy of $1,000,000 on the life plan, agreeing to pay an annual premium for life of $48,390.

The policy for $1,000,000, No. 1,043,3 5, was issued payable to his estate, executors or assigns, and was delivered to Mr. Peavey on the 28th day of April, and his check for the first premium, $48,390, received in payment.

The application for this large insurance was written by Mr. Frank R. Smith, manager of the Minneapolis office of E. W. Peet & Son, general agents for Minnesota, assisted by Mr. George S. Darling, one of the Minneapolis agents.

Mr. Peavey having determined to take out a million dollars of insurance upon his life some months ago, caused to be made through Mr. Charles W. Sexton, a prominent insurance man of Minneapolis, a thorough investigation of the conditions, advantages, plans and policies of all the principal life insurance companies doing business in Minnesota, and also by correspondence with prominent bankers and financiers of New York made inquiry as to the standing and merits of the various companies. As a result of these investigations and correspondence, he decided to place the whole amount in the Mutual life insurance company of New York.

This is the largest amount of insurance that has ever been issued on one life by any life insurance company in the world, with the exception of a policy of the same amount that was written by the Mutual upon the life of Mr. George Vanderbilt, but as the premium upon Mr. Vanderbilt's policy was $35,000, and upon this policy $48,390, and as Mr. Peavey was already carrying $25,000 in the Mutual Life, it can be truthfully said that Mr. Peavey carries the largest amount of insurance in one company and pays the largest annual premium upon one policy of any man in the world.

Frank Hutchinson Peavey was born at Eastport, Me., a little over 50 years ago, but has lived in the west most of his life and in Minneapolis since '88. He is known as the "Elevator King."

This article is of especial interest in view of the fact that at the time it was written Mr. Peavey was still living. Since that time his death has been chronicled. He had paid two premiums amounting together to $96,780, so that his policy stands not only as the largest one ever written but as the most expensive to the company issuing it.

NEED FOR RECLAMATION OF WESTERN STREAMS.

The future of large tracts of arid lands in the west, amounting to many millions of acres, depends largely on the use made of the streams flowing through them. Whether they shall remain in their present unproductive and uninhabited condition, or become the homes of thriving populations and centers of business activity, is almost wholly a question of the fullest and most economical use of their available water supply. Irrigation has been practiced for years on portions of these lands and proved its value beyond question; but the development of more land demands the use of more water, and especially the use of the considerable amount of water which the older methods of irrigation could not control, and which are allowed to run to waste. This waste water represents a large and important acreage for reclamation from an arid state, if only the means are found to make use of it. Part of it is to be found in the spring freshets, part in the water that has sunk beneath the stream's gravel bed, and part, already used for irrigation, which has worked its way so far below the surface as to be beyond the reach of vegetation.

Engineers are alive to the necessity of saving the waste and using over and over again as much of the streams' flow as possible, so as to extend the reclamation line to its utmost limit. Hence the storage of water on the upper portions of the streams is being studied, storage by the cultivation of forests about their headwaters, storage by snowfall, and storage by dams and reservoirs. Attention is also being directed to electricity as a help in economizing the use of water. The electric current is generated in the mountainous portions of the watersheds, it is then conducted to the lowlands and made to pump up again the water once used for irrigation which has sunk too low to moisten the crops, or wells are dug in the river gravels and the water usually to be found there pumped up for use on the farms.

Not only are the streams to be more fully used, but the underground waters are to be reached, and both artesian and ordinary wells made to furnish their very considerable flow of water.

The one idea in the arid west seems to be to use to the utmost all the water to be had in the most economical way, so as to put the largest possible acreage under cultivation. It is interesting to note that many of the recent papers of the series of the Water Supply papers, published by the United States Geological survey, which are written by experts, descriptive of the use of the water supply all over the country, openly or by inference point to the fullest conservation of the country's water as an approaching future necessity.

Office Furniture....

Elstun and Himebaugh Enthused Over Boulder

Mr. George S. Elstun and Mr. J. A. Himebaugh returned yesterday from a visit of several days in Boulder inspecting the oil region in that vicinity. The gentlemen have considerable property in the supposed oil region here, and the recent excitement over the find of oil near Boulder naturally interested them.

"I confidently believe that there will be more wealth in oil in Colorado than in the entire Cripple Creek gold region," said Mr. Elstun last night.

"Look at this oil, the finest and purest that has ever been discovered," enthusiastically holding up to view a good-sized bottle of clear, amber-colored fluid that he had brought back with him from Boulder. It was the product of the Arnold well, and even in its natural state as it was baled up from the well, it was almost pure oil. "On purifying," said Mr. Elstun, "not being not over 1 per cent. waste in the refining process.

"No, we don't know the amount of oil at the bottom of these wells, for if we did we would be the richest men in Colorado," said Mr. Himebaugh. "One thing is certain, that the machinery is yet in its imperfect state, and the equipment is not capable of bringing to the surface the product as it is found. At present the Arnold well bales only a half barrel of oil at a time, but I understand there will be better machinery in a short time.

"All one hears there in the vicinity of Boulder is the talk about oil, and I feel certain that there is a certain, sure thing here. The oil here is the best that has ever been discovered, being worth $2 per barrel in the crude state, and the value of naptha, paraffin and other oil products will increase the output," said Mr. Elstun.

Sheriff Gilbert Got Mackey in Pueblo

Sheriff Gilbert made his first arrest yesterday morning.

He also proved himself to be a good detective and that the sheriff's office is in good hands.

For about six weeks the authorities have been looking for William Mackey, the violinist, who slashed two men with a razor at Parker's dance hall in Roswell. Early in December, during a fight at a dance there, Mackey wielded a razor with such skill that he cut off the ear of the nose of a man named Justice and slashed the wrist of another man. After the fight he escaped and a warrant was sworn out for his arrest.

Two or three days ago Sheriff Gilbert learned Mackey in Pueblo, and notified the sheriff's office there to keep a lookout for him. Yesterday morning Mr. Gilbert was told that Mackey had been found, and he went to Pueblo and took him into custody. Sheriff Gilbert arrived here in the afternoon with his prisoner, who was arraigned before Justice McCleland on the charge of disturbing the peace. As the authorities wanted to hold him on a more serious charge, Mackey was discharged by the magistrate and promptly rearrested by a deputy sheriff on the charge of creating a disturbance in a public resort. This arrest was on an information filed in the district court and Mackey went to jail in default of $800 bail for trial in the district court.

Wiley Pleaded Guilty to Robbing His Father

C. L. Wiley, who robbed his aged father of $750 last September and fled to Denver, deserting his family, consisting of five small children, was arraigned in the criminal division of the district court yesterday and pleaded guilty to the charge of grand larceny. He was remanded to jail by Judge Cunningham, who will pass sentence next week.

T. J. Wiley, the father, told the court that his son had taken the money from under a pillow of the bed on which he was sleeping. He and his son had been drinking, he said, and when he recovered from the effects of the whisky he had taken his son was gone.

James Edmundson, or McManus, pleaded guilty to a charge of robbery. He broke into the residence of John Boyd last September and carried away some silverware. He pleaded drunkenness as an excuse, and asked for mercy because he had served four years in the union army during the civil war. Judge Cunningham ordered him taken to the county jail until his story could be investigated.

J. C. Hoover pleaded not guilty to a charge of larceny, but the case for his trial was not fixed.

The trial of S. B. Gothard, accused of having practiced dentistry without state license, was fixed for next Thursday.

David Brown, aged 15 years, who is said to have stolen a horse from Mrs. Crozier of Manceville, was arraigned and on motion of the district attorney the information was nolled. Brown will be given an opportunity to reform.

The case of Popejoy against Proctor, which was on trial in the county court, went to the jury last night.

Annual Ball of the El Paso Club

Stately tropical verdure and ornamental foliage, with quantities of potted blossoming plants and cut flowers, enhanced the beautifully appointed club house of the El Paso club, last night, on the occasion of the annual ball.

Palms of varying hues mingled with green ran riot throughout the artistic and elaborate floral scheme of ornamentation, and, although the club house has been beautiful many times when in gala array, never was it more so. All day long the decorators labored under the supervision of Mr. William Clark and Mr. E. W. Giddings until scant time remained before the opening of the ball.

Music was furnished by the Midland band stringed orchestra under the leadership of Prof. Irvine. Supper was served in the card room and dining rooms. Also in the bowling alley which had been fitted up with tables and adorned with plants until it resembled a palm garden.

Receiving in the main hall were the officers of the club Messrs. Horace G. Lunt, Charles F. Noble, George Dox Buchman and A. Sutton; with the following ladies: Mesdames H. G. Lunt, G. R. Buchman, Francis W. Goddard and Thomas H. Edsall.

A fine representation of the membership was a pleasing feature, both resident and non-residents being present, and with their guests numbering several hundred.

Throughout, the arrangements reflected great credit upon Mr. J. J. Key, chairman of the general committee for the ball and Mr. H. A. Truesdell, the manager of the El Paso club and his corps of efficient assistants.

How to Prevent Pneumonia.

It is a well established fact that pneumonia can be prevented. This disease always results from a cold or from an attack of influenza. Among the tens of thousands who have used Chamberlain's Cough Remedy for these diseases, you will not find a single case that has ever resulted in pneumonia, which shows conclusively that it is a certain preventive of that dread disease. The fact is it counteracts any tendency of a cold or attack of the grip towards pneumonia. It is famous for its quick cures of colds and grip. Try it. All druggists sell it.

Rent the want ads.

Policeman's Wife Says He Pinched Her

Because of alleged ill treatment, Mrs. Amy Shelby, wife of Policeman Horace Shelby, has begun a suit for divorce in the county court, which was filed in the county court yesterday. Mrs. Shelby says her spouse has "pinched, bruised, squeezed, jammed" and otherwise treated her cruelly.

Mrs. Shelby demands divorce, alimony and costs of the suit, and that while the suit is pending he be restrained from disposing of any of his property. She says he is worth about $1,500 in real estate and personal property.

They were married in Colorado Springs October 7, 1896, and the wife alleges that recently Shelby, who is a colored man, has been cruel to her for some time and has threatened to drive her from their home. She says he is a man of "great austerity of temper."

E. Kessler Buys the Green Mountain Hotel

Henry Anton Kessler, one of the best-known hotel men in the country, formerly of Switzerland and more recently proprietor of a well-known hotel at Princeton, New Jersey, where he had as his guests 200 Princeton students, has bought the Green Mountain hotel at Green Mountain Falls in Ute pass. The sale was consummated yesterday through the agency of W. Coffey of this city, the property being bought by Mr. Kessler from Mrs. Katherine Adams, of 410 North Cascade avenue, widow of the late Dr. Adams.

The property is one of the most attractive hotel properties in this part of the state. The building cost originally about $28,000, and there is in connection with it a pavilion that cost $3,500 more. Ten acres of ground are included in the deal, and while the consideration is not stated specifically it is known that Mr. Kessler secured the property at a low figure, something less than $10,000.

Mr. Kessler is one of the best-known caterers in the country. He will take possession of the house immediately and spend a considerable amount of money re-painting, re-papering and refurnishing the place throughout. There will be accommodations for 150 guests and Mr. Kessler has already contracted to take care of about 50 people for a considerable portion of the summer season.

It is his intention to open the house about May 1.

NEW SERMON COURSE AT FIRST CONGREGATIONAL

By a ballot of 123 to 8 the congregation at the First Congregational church last Sunday morning voted to continue 10:30 as the hour for beginning the service Sunday morning. The experiment will be tried for three months when another vote will be taken.

Tomorrow evening under the auspices of the Men's club the pastor will begin a series of sermons under the general heading of "Questions of Today." The several subjects will be as follows:

1. Is there any antagonism between Evolution and Christianity?
2. Truths and Errors concerning Faith-cure, Mind-cure and Kindred Doctrines.
3. The Bible in the light of to-day.
4. What becomes of the good and the bad after death?
5. How did Jesus differ from other men?
6. Are miracles credible?
7. Socialism and Christianity.

Rev. A. S. Bush, state superintendent of the Congregational Sunday School and Publishing society, will hold meetings every afternoon and evening next week except Saturday, at the tent of the Plymouth Sunday school in the 2000 block on North Nevada avenue. The afternoon meetings will be at 3 o'clock and the evening meetings at 7:30. All persons especially those living in that part of the city are cordially invited to attend these meetings. The afternoon meetings will consist of Bible readings. At the evening meetings there will be preaching. It is hoped after these meetings to institute and maintain a regular Wednesday evening prayer meeting at the tent.

NORTHWESTERN HAS NEW TRAVELING AGENT HERE

Mr. E. H. Lamb, traveling agent of the Chicago and Northwestern railway, with headquarters in Denver, was a visitor in Colorado Springs yesterday. He is succeeding Mr. E. S. Andrews who has represented the "Always on Time" road in this territory for several years.

Mr. Andrews has been transferred by the company to De Kalb, Ill., one of the large stations on the main line between Chicago and Council Bluffs. Mr. Andrews made a host of friends for the Northwestern while he was in Colorado and they regret exceedingly that he is not to be in this territory longer. Mr. Lamb, however, in calling upon the railway fraternity in the city yesterday showed himself to be a worthy representative of the company and he will be a welcome visitor in Colorado Springs.

ANOTHER PERSONALLY CONDUCTED MEXICO TOUR

The Colorado and Southern railroad has announced another personally conducted tour through old Mexico, the party to start from Denver on January 28. This is the third and is without doubt one of the biggest excursion parties that has made the tour of this interesting country for several years as the Americanizing of old Mexico is taking place at a rapid rate and the people who wish to see the country with its foreign characteristics will doubtless arrange to make the trip soon.

Travelers who have seen the whole world state that it is hard to find any country anywhere more foreign than old Mexico.

The tour this year will include all the places of interest in the country and will take 30 days.

Shakespeare tickets at Hoyt's and Coburn library. $1 course tickets, 75 cents single tickets (reserved seats). Admission 50 cents.

MR. ELSTUN REMEMBERED THE FIREMEN'S FUND

The fire department had a run yesterday morning to the residence of Mr. Henry C. Falton on Wood avenue. The fire was caused by a small alcohol lamp igniting some furnishings in a bed room. The blaze was quickly extinguished with damage amounting to about $20.

In the afternoon Mr. Elstun wrote the department a letter expressing his appreciation of the prompt response and the quick and efficient work of the firemen and enclosing his check for a contribution to the firemen's relief fund.

BARRETT ARRESTED FOR BEATING HIS WIFE

Frank Barrett, a stonecutter, was arrested yesterday charged with beating his wife. He was arraigned before Justice Ruby and sent to jail in default of $200 bail pending a hearing this morning.

Mrs. Farrell appeared before Justice Ruby yesterday morning disfigured as a result, she said, of a beating given her by her husband on Wednesday. She said that the assault had taken place at their residence on East Cimarron street. She said that she had forgiven her husband for the beating, but that yesterday morning he began smashing the furniture at the home. She left the house immediately and went to the justice court. She swore out a warrant for her husband's arrest and he was taken into custody by a constable.

Mrs. Farrell has been severely beaten. Her eyes were black and blue and there were several ugly cuts on her face.

SNOW TO BE CLEARED FROM PROSPECT LAKE

The cold weather of the past two nights has caused a good thickness of ice all over Prospect lake, especially over the eastern part of the lake where a sheet of clear, crystal ice, almost half a foot in thickness, has been formed.

The snow will be scraped and swept away from the ice this morning, and skating will be fine today, and will most probably last several days.

The snow of yesterday morning has not had time to melt, while the ice beneath it has only frozen the harder. If the cold lasts a day longer, a good crust of ice will form all over the lake, making a great stretch of clear ice for the skaters. The snow so far has not hindered skating, but should it melt the ice might become dusty and rough, and to prevent this the snow will all be removed this morning.

Evening skating parties are all the fashion now, and during the full part of the moon the lake was covered with skaters every night.

Dr. Cole has associated himself with Dr. Chamberlin, dentists. 'Phone 554-A.

Trunks, valises, harness, at Harbaugh's at cost for January 13, 14, and 15. 11 to 13 South Cascade avenue.

REMARKABLE CURE OF CROUP.

A Little Boy's Life Saved.

I have a few words to say regarding Chamberlain's Cough remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Steere of Goodwin, S. D., and when I got home with it the poor boy could hardly breathe. I gave the medicine as directed every 10 minutes until he "threw up" and then I thought sure he was going to choke to death. We had to pull the phlegm out of his mouth in great long strings. I am positive that if I had not got that bottle of cough medicine my boy would not be on earth today.—Joel Dennont, Inwood, Iowa. For sale by all druggists.

COLORADO CITY NEWS

COLORADO CITY, COLO., JANUARY 17, 1902. OFFICE—505 Colorado Avenue.

Pastimes Club Had an Invitation Shoot

A practice shoot was held yesterday afternoon by the Pastimes Gun club on the range of the club. The attendance was increased by the presence of several members of the Manitou organization of the same character. The latter were particularly well pleased by the practice of yesterday and it is expected that they will put in their applications for members up in the Pastimes organization. Favorable action would doubtless be taken and the club would become one of the strongest clubs of the kind in the region of Pike's Peak.

The club has been very prosperous ever since its organization and has held enthusiastic shoots, notably those of Thanksgiving day and Christmas day. With the addition of the Manitou sportsmen the membership would be increased to about 60. Thomas Rich of Colorado Springs is president of the club.

WANTED BONDER ON COUNTY BOARD

Members of the chamber of commerce went to Colorado Springs yesterday to interview the county commissioners concerning the new road which it is proposed to construct by opening up First street from the city to the county road running to the poor house. Two of the commissioners could not be found and another attempt will be made to find them this morning. The members of the committee appointed by the chamber of commerce are W. P. Epperson, chairman; Anthony Bott, C. D. Taylor, C. E. Corporan and George F. Geiger.

The petition which is being circulated in favor of the road and bridge over the creek with approaches thereto is receiving many additional names every day.

PLEASING RECITAL AT METHODIST CHURCH

A fine recital was given in the Methodist church last evening, the principal part of the program being recitations by Will Thomas and his sister, Mrs. Clara Brown, both of whom are well and favorably known in Colorado Springs, Colorado City and Manitou. Both Mr. Thomas and Mrs. Brown live up to their reputations and delighted a good-sized audience. Marvin Gaylord of Colorado Springs assisted in the entertainment and gave a fine rendition of Lobeski's "I Love You," which was heartily encored. The recital was under the auspices of the Ladies Aid society of the church and netted a neat sum for the building fund. The complete program was as follows:

Music.....Mrs. Hazlett
Recitation—"Woman on Baseball".....Mrs. Brown
Recitation—"Knee Deep in June".....Mr. Thomas
Recitation—"The Legend of King Nilus".....Mrs. Brown
Solo—"I Love You".....Lobeski
Mr. Marvin Gaylord.
Recitation—"The Farmer and the Wheel".....Mr. Thomas
Recitation—"Aunt Sophronia and the Opera".....Mrs. Brown
Recitation—"Tillius".....Mr. Thomas

BRIEF CITY ITEMS

TRIMMING—City employes were at work yesterday on Colorado avenue trimming up the cottonwoods, giving the street a much neater appearance.

The work will be continued throughout the city wherever it is necessary.

IMPROVEMENT—A new adding machine has been installed in the Citizens State bank.

RETAIL CLERKS—The local Retail Clerks union will meet in W. C. T. U. hall Monday night.

PAY DAY—Wednesday was pay day at the Mt. Cañ shops and the various reduction works. About the usual amount was distributed.

TO MACHINISTS—A lecture to machinists will be given in K. P. hall tomorrow evening, the address being delivered by George Mulberry, third vice president of the International Association of Machinists. Non-union as well as union men are invited to be present.

INFORMATION BUREAU—The information bureau of the chamber of commerce will be opened next week in Beyle's furniture store. Geo. R. Beyle is the secretary and will be at his desk during the day to answer questions and distribute literature about the resources of the city and state.

AMERICAN ORDER OF PROTECTION—The American Order of Protection held an interesting meeting in the Waydott building last evening at which the membership was increased by the initiation of several new candidates. After the ceremonies a pleasant social session occupied the remainder of the evening.

PERSONAL MENTION

J. S. Hatfield will hereafter reside in Pueblo.

O. H. Dutcher is visiting friends in Denver.

Mrs. Mary Rachel has removed to Colorado Springs.

Mrs. T. M. Stump has gone to Carnegie, Pa., to join her husband, who is engaged in business there.

NEWS NOTES FROM PUEBLO

George E. King Elected President of the Business Men's Association.

Pueblo Bureau
Colorado Springs Gazette

Pueblo, Jan. 16—At a meeting of the directors of the Business Men's association this evening the following officers were elected: President, George E. King; vice president, L. J. Tyson; treasurer, George H. Williams; secretary, John W. Lockin. The election of Mr. King as president will prove undoubtedly to be a very popular move by the association, as he is in every way adapted for the position. The retiring president, Mr. Willisford Dey, has been untiring in his labors for the past few years and the success of the association is largely due to his efforts. The re-election of Secretary Lockin will prove also to be a popular move, as there is probably not another man in the state who has as complete an understanding of the business possibilities of Pueblo as has he. The headquarters of the association will continue to be in the Central block and it is expected that adjoining rooms will be secured as the membership is increasing rapidly and more room is practically a necessity.

Only one receiver's final receipt was issued at the land office today and that was for Venture lode, Cripple Creek mining district, Teller county, to Frank H. Pester of Cripple Creek.

J. N. Carlile and others filed a suit in the district court this afternoon against John Jose and others, asking for the possession of lands upon which the defendants have squatted. In addition to seeking to regain possession of the land, the plaintiffs ask $10,000 damages.

County Commissioners West and Smith were inspecting the conditions of the county roads today in the vicinity of Avondale. None but routine business was transacted by the board this morning. No Republican has yet been found for the position of yard man and engineer and the Democratic janitor still retains his place.

Four chances out of 10 for recovery is the opinion Drs. Gangave of the probability of the recovery of Juan Rael, the Mexican who was shot last Tuesday night at Avondale by Willard Dunham, a ranchman, who lives on a ranch close to the Mexican, as a result of a quarrel over the theft of some hay from Rael's ranch. The Mexican was brought to the city last night and is in the Pueblo hospital, while the nurses have been ordered to allow no one to see him. Dunham is also at the hospital, but his injuries are comparatively trifling and he will probably not be confined to his bed more than a few days. Neither man has yet been placed under arrest, although they are under the surveillance of the sheriff's office and Dunham is shackled to the foot of his iron bed to prevent his escape.

Charles Boatright, charged with false pretenses in borrowing money on a fraudulent check of the proprietor of a restaurant this morning, withdrew his plea of not guilty in the county court and entered a plea of guilty. He was not sentenced, however, as he said that he wished to consult an attorney before action was taken in his case. It is alleged that Boatright represented to the restaurant people that he was a railroad man and that he would return in the morning. Later this afternoon he was sentenced to 90 days in jail.

A meeting of the board of directors of the Minnequa Town company was held last evening and the election of George Herrington as manager of the company, and Fred O. Roof, vice president, vice J. A. Kebler, Mr. Herrington will also attend to the office of assistant secretary as at present. President Bowen said this morning that the demand on his time by other business enterprises with which he was connected made it necessary to select a vice president who can attend to the affairs of the Minnequa Town company when he is out of the city. Mr. Roof will also be cashier of the new bank to be opened in the Minnequa addition.

Daniel O'Connell, a railroad man, came to this city January 2 from west of the mountains, with about $300 he had saved, and started in to have a good time. Soon after his arrival he became acquainted with Frank Myers. The two men started on a spree, O'Connell paying for everything. Finally the railroad man became so drunk that he went to sleep in a saloon, and when he awoke Myers had disappeared and with him $280 in bills, which O'Connell had in a pocketbook on the inside of his coat. This morning Officer Shafer saw Myers on Union avenue and promptly arrested him on the charge of robbing O'Connell. Myers denies the charge but gave no good reason for leaving Pueblo as he did.

The infant child of Mr. and Mrs. A. L. Moore is reported seriously sick.

If Nick Pandovich, Sirey Toschar, Nick Tatorch, Mike Korch, Jim Mikey and Nick Mudoch labored under the impression that their aged misdeeds had been overlooked by the officers of the law they were suddenly brought to a realization that such was not the fact yesterday at about 6 o'clock in the afternoon. At that hour the men, with dinner buckets in hand, approached the gate at the steel works, where they are employed, and were gathered in by Constable Newberry, Detective Bradley and Special Officer McNeil. They were taken to the city jail, and will be arraigned on the charge of assault with intent to kill. Fred Loesler is the complainant, and he says that he was the victim of a most brutal assault on the night of January 1, while at work with the six men who are under arrest. The trouble which ended only after Loesler was thought to be dead so that he could not attend to business in the future, is said to have started over a most trivial matter. Loesler says that one of the men objected to his using a shovel with which he was at the time at work, claiming it belonged to him. Loesler insisted that the shovel belonged to the C. F. & I. company and kept on working with it. An argument which grew more heated as it progressed, was started over the shovel, and when it was over Loesler was almost lifeless, his head being beaten into a jelly. He has been in the hospital since the assault occurred until yesterday when he appeared in a justice court with his head done up in bandages and swore out a warrant charging the six men with assault.

Mineral applications were allowed yesterday in the Federal land office as follows:

Metallic Princess and Stockton No. 1 lodes, Greenhorn mining district, Fremont county, from the Canon Mining & Milling company, by Albert E. Wilson, 626 Main street, Canon City.

Eureka lode, Greenhorn mining district, Fremont county, from E. Force Jewett, Canon City.

D. T. Saunders, former city weigher, has accepted a position with the Rio Grande railroad.

John A. Martin came in from a trip south today.

J. E. Collier left last night for Chicago on business.

Dr. R. W. Corwin is in Denver.

Hon. Alva Adams went west on the D. & R. G. yesterday.

Herbert George of Denver, is in the city.

H. H. Shepherd, general agent for the C. & A. railroad, is in Pueblo.

J. R. Yeager left last night for Palmyra, Mo., where he will visit relatives and friends.

William M. Worley, a hotel man of Lamar, is visiting his uncle, F. P. Worley, in Pueblo.

H. B. Cooser, general western agent of the Missouri Pacific railway, was in Pueblo yesterday.

C. W. Hammond, superintendent of telegraph for the Missouri Pacific, was in Pueblo yesterday.

John Sobek is suffering with a serious scalp wound received while at work in the steel works yesterday by some coke falling on his head.

Miss Tot Smith arrived home from St. Louis this morning, where she has been visiting friends for a month.

Mrs. W. E. Cundiff, accompanied by her little daughter, went to Cripple Creek yesterday to visit her sister.

Mrs. C. F. Martin of Denver, arrived in the city to attend the funeral of her sister, Mrs. Blunt.

George McDowell of Joliet, Ill., who has the contract for roofing the wire mill building at the steel works, will arrive in the city soon.

C. G. Caughlin and John Alison of Cripple Creek, were in the city yesterday and completed arrangements for the establishing of a furniture store on Northern avenue.

J. Ernest Cooke of Danville, Ill., is expected in the city today to take up his residence here. Mr. Cooke is a member of the firm of Phillips-Cooke, which recently opened a hardware store here.

A. S. Burrows of the Boston farm, was in the city yesterday on business.

Mrs. Julia Waldrip left yesterday afternoon for her home in Florence. She was here to attend her daughter, Mrs. L. L. Gray, who has been seriously ill.

Mrs. M. Campbell will shortly arrive here from Leadville and take up her residence at the home of her brother, J. B. McKenzie.

F. P. McGinnis has been appointed agent and operator at Bessemer Junction station and assumed charge today.

Warren Pond of Reagle & Pond, real estate brokers, has returned from a business trip to Ramah, 70 miles northeast of here on the C. R. & P.

Mrs. Anna E. Moore and Miss Moore, her daughter, a teacher in the Colorado school, are quite sick at their home, No. 25 Routt avenue.

Mrs. Robert Williams, living at 1272 Eaton avenue, left today for Denver on a visit to her son and may make her permanent residence in that city.

George Lyster arrived here this morning from South Chicago and will work at a position in the steel works. His family will arrive about March 1.

J. H. Willard of Cripple Creek has decided to locate in Bessemer. He will open elaborate and handsomely furnished tonsorial parlors.

T. B. Whittington, superintendent of the foundry at the steel works, who has been quite sick for the past three weeks, is slowly convalescing, but it will be some time before he will be able to resume his duties at the works.

Maj. W. F. Townsend closed a deal today with eastern parties whereby several thousand dollars was transferred in exchange for vacant property in Bessemer, the suburb of Pueblo. The major reports inquiries to be on the increase and that they are generally backed up by sales.

MRS. SNYDER'S FUNERAL—The funeral of Mrs. O. F. Snyder of Manitou, will be held this afternoon at 2 o'clock in the Episcopal church in Manitou.

EVERYTHING FOR EeverybODY.

Manitou

STREET RAILWAY WORK NOT UNDER WAY

The work of improving the street railway system of Manitou is going along at a rapid rate. A large force of workmen is employed there blasting the rock near Manitou and Manitou avenues for the purpose of widening the street. The entire road at the junction of Buxton and Manitou avenues will be taken away to make room for the erection of the station and loop. The building is to be made of steel and iron. It is not the intention to have this finished at the time of the completion of the railway, for the amount of preparatory work is so much to be done by July 1, after which date, no work can be done on the street railway system in any part of Colorado Springs or Manitou.

PERSONAL MENTION

Mrs. Fannie M. Paulson of Victor, is a guest of Mrs. Farrer.

Leslie Carne entertained the Young People's club on Wednesday night.

Mr. and Mrs. C. E. Vallier of Denver, are guests of Mrs. Austin Hutchison.

Dr. Ontzancer and C. M. McCarty of Freeland, Mich., will spend the rest of the winter in Manitou.

Mrs. Sayger, who has been very ill, is becoming weaker and the physicians are entertaining no hope of her recovery.

Mr. and Mrs. George Hayden of Cleveland, O., who have been in Manitou for the most of the winter, returned east yesterday.

Mr. and Mrs. Chesterfield, from South Dakota, are among the recent arrivals at Manitou. Mrs. Chesterfield is here in the hope of improving her health.

E. H. Grafton, postmaster of Manitou, is recovering his usual health. During his absence from the office, Mr. Ross is performing the duties of postmaster.

Mrs. B. R. Jones entertained a few friends Tuesday evening in honor of Lieutenant Booth, who is in Manitou visiting his parents. He is en route from Santiago to Manila.

The frail babe and the growing child are strengthened by WHITE'S CREAM VERMIFUGE. It destroys worms, gets digestion at work, and rebuilds the body. Price 25 cents. Hefley-Arcularius Drug Co.

SHIPMENTS FROM THERESSA

Lessees and Stockers in the Large Prospects — Lessees Working the Five Cut Two-Foot Vein at a Depth of 70 Feet — Various Other Items.

Special to the Gazette.

Cripple Creek, Jan. 17.—Godsey and White operating the north end of the Theresa under lease, have put on an increased force of men and are making excellent regular shipments from that property. The best of the ore is from the 250-foot level and returns from the shipments indicate values of a little over two ounces in gold to the ton. The lessees are developing quite a large proposition and are sending out several carloads of ore a week. A sixteen shipment that was consigned several days ago was settled for today at $43 per ton, and an 18-ton shipment of the same grade ore was marketed from the lease today. It is understood that the company workings on the Theresa are to be started up again soon under the leasing system.

The prospects for good leases to be granted on Bull hill are excellent and it is thought that a number of companies in that locality are about to give out good blocks of ground on reasonable terms.

Metzer & Kelley, leasing block No. 2 of the Atlanta, have cut a two-foot vein at a depth of only 70 feet. The lessees will proceed as rapidly as possible to exploit the new lease which is already giving values of $18 per ton. Kenyon and company on the main working of the Atalanta have commenced drifting north at the 250-foot level for the ore shoot which is believed to exist about 200 feet from the shaft. The lessees have good pay ore in the next level above, and are confident of opening up something better at the greater depth.

Weaver & Steelsmith who have been operating the lease on the Mountain Beauty-Findley territory closed up their operations on that property with a shipment of 200 tons of $40 ore.

Clements and Devine, leasing a block of the Gold Sovereign, made a shipment of 10 tons of ore which is worth about $37 per ton. The lessees are doing some good development work and are sending out shipments with more or less regularity.

The Practical Leasing company on the Trachyte recently operated by Lessee White, are making a steady production of $30 ore from their 350-foot level where they are breasting the full width of a five-foot vein. The output from the lease is running about 300 tons per month.

Wilson & Dalzell on the Annex of the Golden Cycle company, are increasing their regular production, and at present about a carload of $40 ore is being consigned every day.

The Cripple Creek Mining company has taken charge of the main workings of the Independence Consolidated, Hull City placer and has commenced sinking at a rapid rate to the 1,250-foot depth. The regular production is being maintained at the same time the development work is in progress.

The Anaconda company is getting out about two carloads of ore weekly from the company's workings. The different sets of lessees on the property are nearly all in good ore and the company is realizing quite a bit of profit from royalties and the regular shipments. The best of the ore is from a depth of 400 feet below the tunnel level, or 800 to 1,000 feet from the surface.

The Vindicator production is running at about 2,000 tons of ore per month, although this could be considerably increased at any time the management so desires. The development work is being kept far ahead of the production and the chief ambition of the management is to maintain the regular rate of dividends to the stockholders with as little ostentation as possible.

The Cripple Creek-Colorado company on Gold hill, has completed the connection between the A and B shafts and both workings are now very well ventilated. The bottom of the B shaft at the 200-foot depth connects with the workings. It is the intention of the company to deepen the shallower shaft to the 400-foot depth and run out another connection. A good production is being made from this shaft while the surface improvements are being installed over the other workings. The new plant of machinery should be in readiness for operation within the next two or three weeks. Then sinking will be resumed to the ultimate depth of 1,500 feet.

One of the best producing leases in the district is that operated by Kirk & Company on the main workings of the Clara D. of the Lexington company on Gold hill. This leasing company is sending out three carloads of ore every week, and the returns on the mineral are averaging up close to $40 per ton. A good-sized ore body is being broken at the 150-foot depth and the lessees are getting rich off the proposition. While the property has shipped in a desultory way for some time, it is only recently that the lessees commenced producing at such a heavy rate.

NEW FLORENCE OIL COMPANY

Lessees Have Been Organized to Develop Their Lease on Canon City Business Lot.

A new oil company, owning 800 contiguous acres of land northwest of Canon City has just been organized in Denver, where the principal offices of the company are to be located. The officers and directors for the first year are as follows: President, W. G. Sheldon; vice president, J. E. Hill; treasurer, J. W. Hudston; secretary, Arthur Ponsford; C. M. Schenck, Washington Aldridge, A. H. Aright and Adolphus Page. All these gentlemen are well known in Denver business and professional circles. The president and secretary are both prominent lawyers; Mr. Hill is commissioner of the Colorado Car service bureau; Mr. Hudston is assistant cashier of the Denver National bank; Mr. Schenck is president of the Colorado Supply Co.; Mr. Aldridge is a wholesale commission merchant in Denver; while Messrs. Aright and Page are well known Canon City men the latter being an experienced oil operator.

The company's property is a mile and a quarter long by a mile and a half broad, lying in a basin and extending across Oil creek. It is located about five miles northwest of Canon City and some six miles west of Florence. The company also holds an option to purchase 160 acres of oil land, also on Oil creek, adjoining its own property.

Oil was discovered along this creek over 35 years ago, and since that time oil operations have been more or less active; while the whole district between Florence and Canon City has been producing oil steadily for 17 years. The company intends to sink several wells on its property, and thoroughly open up its oil resources. Professor Arthur Lakes is consulting engineer to the company, and reports most favorably on the prospects for oil.

THE CRYSTAL OIL AND GAS CO.

Stock Began Selling Yesterday at 30 Cents Per Share—Good Showing Made by Production—Strong Board of Directors.

One of the most important of recent flotations in the Boulder oil district is the Crystal Oil and Gas company which has just been put on the market. The company is organized with a capitalization of 1,500,000 shares, with 300,000 shares reserved as a treasury fund. The officers and directors are as follows: President, Rufus C. Thayer; vice president, Frank T. Sanders; secretary and treasurer, J. P. Sweeney; Charles Page and Percy Hagerman.

The company owns 80 acres of ground adjoining the Headlight property, where fine oil is now being produced. The location is considered to be one of the best of any prospective company in the Boulder district, and it is the intention of the management to start drilling at once to open the oil. The Headlight product, in common with other oil which has been found in the district, is as fine a quality as exists in the country, having a fine paraffin base; with no objectionable ingredients whatever. The Headlight stock has advanced to 25 cents per share since the oil was opened.

Messrs. Sanders and Sweeney, who are at the head of this company, have been at the seat of activity in Boulder ever since the oil excitement began, and have been singularly fortunate in securing choice ground. They are official agents for the Superior Oil and Gas company, as well as for the Crystal company. The stock in the latter corporation is being placed at 7½ cents a share.

DISCOVERIES ARE NEW

Drilling is now under full way again at the Portland well west of this city, and it is thought that no further delay will occur until either gas, oil or water is discovered. The latest delay was caused by a determination to prevent disaster and replace the casing with a heavier grade. This has now been accomplished, and the well is going down below the 600-foot point. The management has put this down only as an experiment, and no special disappointment will be felt if nothing more than a well of water is created; as even that would be a welcome feature of the company's location.

THE WORKINGS OF TWO PROPERTIES OF GOLD HILL.

Yesterday work was resumed on the Callie claim on Gold hill by the miners in the employ of Mr. W. S. Stratton. There is a shaft on the property that is already down to the depth of 300 feet and this will be carried down an additional 200 feet before sinking will be stopped. Two shifts a day will be employed for some time to come.

The Ellen McGregor, another Gold hill property, is being vigorously worked by lessees. The property is situated on the west slope of the hill and in the workings of the lessees there is some very high grade ore from which assays have been taken that are reported to run as high as $50,000 in gold to the ton.

STRIKE IS REPORTED AND DENIED OF PHARMACIST.

It has been rumored for some time in the camp that a good strike has been made in the workings on the Pharmacist claim located on Bull hill. It is the report that in cutting some of the ore stringers in the crosscut which is being driven east from the bottom of 800-foot level, some very rich ore has been encountered. The property is being operated by the Mitchell leasing company and the manager of the work, Mr. Mitchell, denies that any strike has been made in the workings but states that the showing is very encouraging and that the ore shoot is expected to be encountered at almost any shot.

LOTS OF [illegible] FOUND IN COLD [illegible]

The report comes by way of Denver that a bonanza strike has been made in the Bull on King mine a short distance from Idaho Springs and near the [illegible] Stanley property. The important find has been made in the adit tunnel that is being run in the old Mayflower holdings that have been recently purchased by the Bullion people. The ore encountered is stated to be something near three feet in width and is all high grade Smelting ore. Air drills have been in operation for a short time on the property and for the past few days the [illegible] of the adit has been driven into the rich ore with every sign of improving instead of pinching out.

This vein has been cut at the depth of 100 feet below the apex of the mountain and everything overhead is as yet unbroken. The company has a right to follow the vein on the horizontal for a distance of over 3,000 feet over to the Spring gulch side.

EAGLE MINE SHIPS $60,000 WORTH OF BULLION.

One of the largest shipments that has been sent out from the Cripple Creek district for some time is that which has been recently sent out by the Eagle sampler which is located near Colorado field, General manager Day before yesterday the sampled closed a shipment of 48 narrow gauge cars containing in total 960 tons of ore. The majority of these cars have been sent to the Leadville smelter because that reduction plant is in need of silicious ores. The bullion value of the whole shipment is estimated at $60,000.

INCREASE OF GOULD MINING OUTPUT IN THREE PLACES.

Babbitt brothers, leasing on the Jennie Sample, owned by the Gould company, are mining some good ore in three different places on the property. A drift is being extended at the fourth level on three feet of ore that assays pay. A great deal of ore has been shipped from the Jennie Sample by the company, but as depth was gained the values disappeared. The lessees, according to their contract, will have to sink an additional 200 feet and it is confidently expected that good ore will be found in drifting from this point.

Barton and May, leasing on the Rhinoceros owned by the Goulds company, have now drifted 40 feet at the 55-foot level in their lease. In the breast there is still show of [illegible] ore. Two shipments have been sent out that have averaged about $40 to the ton. A shaft and ore house and a plant of machinery will be installed at once, and when the shaft house is completed three shifts will be employed in sinking the shaft to a depth of 300 feet. The lease has about 10 months to run, and the lessees are confident that they can work out this amount of ground within their contract time.

WORKING OF [illegible] TO [illegible] YOUR CAMP.

A various shipment was sent out yesterday to a local sampler from the Accident mine on Poley hill, just west of the Pointer. The ore, which is estimated to be worth about $100 a ton, carries the most of its value in silver, a peculiarity for this camp. The property is being operated by an eastern syndicate whose interests are being looked after by Superintendent Lockwood.

Lockwood and associates, leasing on the Accident, which is situated close to the Pointer, on the west slope of Gold hill, made a shipment of 15 tons today. Assays would indicate a value of about $40 a ton.

Burke & Terrell, leasing on the Colorado Boss, owned by the Cripple Creek Consolidated company, are not shipping any ore at present. The entire force is engaged in sinking the shaft and when the 125-foot point is reached drifts will be extended on the vein and stoping commenced. In the upper levels in places the ore body is ten feet wide and it averages about $20 a ton with very little sorting.

Returns were received Tuesday on a 4-ton shipment of low grade ore from the Monarch Mining and Development company's lease on the Burnside of the Acadia. The rock averaged $14.10 a ton.

Kirk and associates, leasing on the Clara D. of the Lexington company, are upraising to surface from the 130-foot level at a point 135 feet west of the present shaft. It is the intention of the lessees to make this the new working shaft, as it will cut the shoot at a point more favorable for working the property.

It is reliably reported that Weaver & Steelsmith cleared up about $20,000 in the past year in their lease on the Windsor. The company is now running on the ground.

800 ACRES OIL LAND!

We Expect to Make a Fortune. Will You Join Us?

We Own 800 ACRES OF OIL LAND Near Florence, Colo., in View of the Oil Producers of the Great Standard Oil Co.

PROF. LAKES, the Eminent Geologist, reports on it:

I have examined the oil land situated on Oil Creek, and can report very favorably on the situation. I find abundant oil seepages along the banks of the creek adjacent to and on the property and I find the geological conditions to be typical of the kind most approved by oil men. I think that the whole property from south to north along the banks of the creek is well adapted on geological grounds for boring for oil.

Proofs of Oil on the Company's Land

In a word I consider the situation as favorable for a productive oil field as any I have examined in Colorado.

We have good proofs of the actual presence of oil at various points along the creek underlying the property.

Oil on the Surface

I may say that in early days, to my knowledge, quite a fair supply of lubricating oil was obtained very near to the spot I have selected for the first well, at a depth of not over 100 feet. The oil was collected and sold in those days at a good price. It is within a few yards of this well, only further east and under heavy cover, that I have suggested the location of the first trial well on this property.

Promising Conditions

In conclusion I reiterate with pleasure that this is as promising a field and property as any I have met with in Colorado. Respectfully,

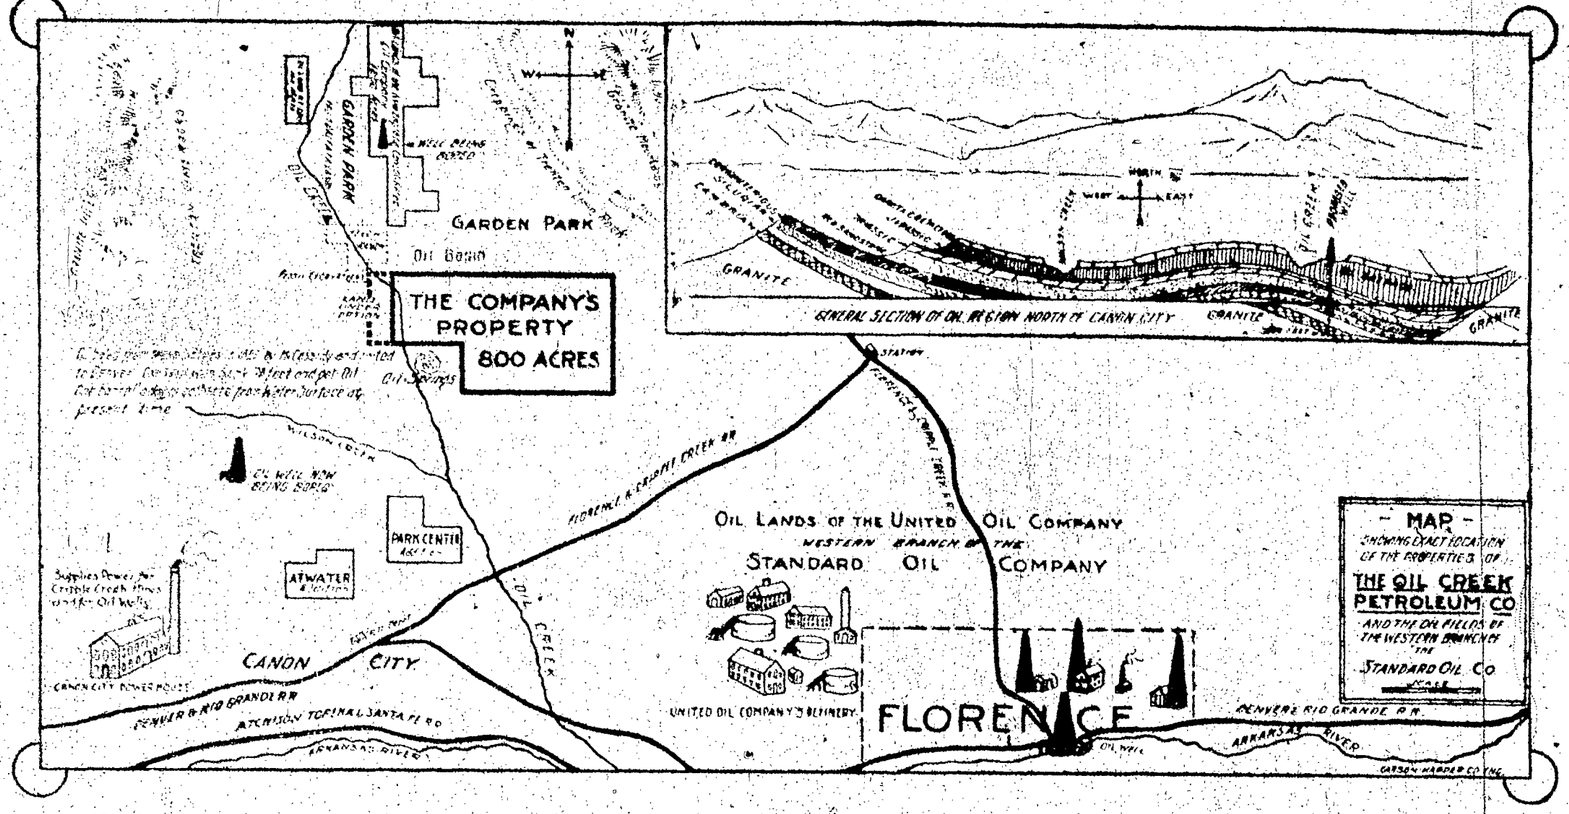
ARTHUR LAKES.

Best Bank References Furnished

Our Officers and Directors are composed of representative business men of Denver.

We will give the best bank references.

Send for Illustrated Prospectus today in order to get stock at 10c. Only a limited amount will be sold at this price.



We know there is oil—how much, development alone will tell. Note our small capitalization, only 750,000 shares, full paid and non-assessable.

We have $2,000 in bank, with no debts. We are offering the first small block at **10c a share** to raise additional funds to put machinery on the grounds at once. Come in with the organizers. The next block, if offered at all, will cost 15c. Where desired, partial payments may be made.

HISTORY

On the spot where flows the oil well referred to by Prof. Lakes in the preceding report, are apparent the remnants of a somewhat crude refinery which was there operated 35 years ago, and a number of old wooden casings of wells bored about the same time from which the refinery was supplied with the crude oil. J. T. Tong, still a resident of Canon City, in 1865, with an ox team hauled oil from these works to Denver and there sold it for lubricating purposes at 65 cents per gallon.

More History—More Interesting

Two years ago a company owning a tract of land in the vicinity of this company's property selected for the location of a well a site which they supposed to be on their own lands. They sunk a well some five or six hundred feet and encountered several strata of oil, gas and salt water. Everything indicated the probability of their being on the eve of reaching an extensive oil zone, when they discovered that their well was not located on their own land but on land which belongs to this company. The derrick was promptly dismantled and all work ceased; part of the machinery is still on the ground and within the casings of the well gas can at this time be seen bubbling to the surface through the salt water.

OTHER DEVELOPMENTS

Two miles north of this company's lands The New England Consolidated Oil company is now at work prosecuting the drilling of oil wells. Oil wells are also being sunk in the neighborhood by other companies.

The country surrounding the oil fields of The Oil Creek Petroleum company is being rapidly pushed to the front as a known and approved oil region, but no locality is quite so promising as that owned by this company.

The Oil Creek Petroleum Co.

P. O. Box 13, Capitol Hill Station, DENVER, COLORADO

THE GAZETTE IS THE ONLY NEWSPAPER IN THE STATE WITH ITS OWN PRIVATE WIRE TO THE COLORADO SPRINGS MINING STOCK EXCHANGE.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Jan. 17.—The mining stock market was more active today, and prices in one or two instances were better, although there still were some deplorable instances of weakness which makes the general impression of the trading a rather gloomy one. Battle Mountain was lower at 15. Dante sold at 1⅞ and Doctor gained fractionally to 42½, while Elkton was stronger again, selling up to $1.19, with 12,500 shares changing hands at that price. The close was 18⅝. It is evident that the strong support which influenced this stock on Wednesday was again to the rescue and the heavy fluctuations of the shares indicate a considerable amount of speculation. El Paso went off fractionally to 58½, but Golden Fleece was very strong at 57½ and Mint was fractionally stronger at 7. Isabella sold at 28, and Pointer at 5⅝ was slightly stronger. Work was low at 9. As examples of the disastrous effect of a little forced selling, so slip is the demand for stocks, Lexington was in evidence which was a trader to the amount of 4,000 shares only, but which fell off to 4⅝, and Portland declined to $2.45, with 2,600 shares changing hands; which is lower than the shares reached at the time of the bear raid last spring, and completely wipes out any advance which was gained last year. Trading in one or two preferred stocks was rather good. Keystone was active at fractionally higher prices, closing at 8⅛. Little Bessie recovered to 4 and Sunset-Eclipse was a good trader at 11⅝, closing two points lower.

EASTERN MARKETS

New York Stock Market.

By Associated Press.

New York, Jan. 17.—There was increased activity in the stock market and a show of strength, but the dealings did not rise much over half a million shares, and were largely congested in the the few stocks which were favorites in speculation. Professional manipulation had not a little to do with the advance in prices at some points and the movement was clearly directed against the short interest, which had been accumulating during the downward course of prices this week. The recovery from a recent illness of a leading operator who is commonly credited with the leadership of the protective forces of the market on the bull side was believed to explain an important part of today's transactions. The factors which accounted for the rise were partly in the shape of vague intimations and general aspirations and general assertions, rather than of explicit information. Late in the day St. Paul was bid up quickly nearly two points and other grangers and Pacific hardened in sympathy. This late movement was the effective factor in keeping the closing firm, as a wavering tendency had developed before St. Paul's rise. The bulls had in their favor the prospect of a strong bank return tomorrow.

Continuous quotations on New York Stocks, Bonds, Cotton, Chicago Grain and Provisions. Wm. A. Otis & Co., 127 East Pike's Peak avenue.

New York Money.

By Associated Press.

New York, Jan. 17.—Money on call steady, 3@4; closing offered at 3. Prime mercantile paper, 4½@5.

Sterling exchange steadier, with actual business in bankers' bills at $4.87¼@4.87⅝ for demand and at $4.84¼@4.84⅝ for 60 days. Posted rates, $4.85 and $4.88. Commercial bills, $4.83¾@4.83⅞.

Bonds—Governments, steady; state, strong; railroads, strong.

Chicago Grain and Provisions.

By Associated Press.

Chicago, Jan. 17.—Renewed confidence and a general improved feeling characterized the trade in grains today. From the start grains and provisions were given good support even though business was quiet. May wheat closed a shade lower, May corn ½c higher, and May oats ½c up. Provisions had net gains of from 5 to 7½c.

The leading futures ranged as follows:

	Open.	High.	Low.	Close.
Wheat, No. 2—				
Jan.	76½	76⅞	76⅜	76½
May	80⅞	80⅞	79⅞	80¼
July	80	80⅞	79⅞	80⅛
Corn, No. 2—				
Jan.	60	60⅛	60	60⅛
May	63⅝	64	63	63¾
July	63⅞	63¾	62⅞	63½
Oats, No. 2—				
May	35	35⅝	34⅞	35⅛
July	30⅞	30⅞	30¼	30
Sept.	27⅞	27⅞	26⅞	27½
Mess Pork, per bbl.				
Jan.				16.65
May	16.92½	17.07½	16.85	17.05
July	16.75	16.92½	16.72½	16.90
Lard, per 100 lbs.—				
Jan.	9.42½	9.42½	9.40	9.42½
May	9.67½	9.77½	9.65	9.77½
July	9.70	9.80	9.70	9.77½
Short Ribs, per 100 lbs.—				
Jan.				8.40
May	8.62½	8.70	8.60	8.67½

Cash quotations were as follows:

Flour—Easy.

Wheat—No. 3 spring 74½@77½; No. 2 red, 83½@85c.

Oats—No. 2, 35½@35½c; No. 2 white, 37c; No. 3 white, 36@37c.

Rye—No. 2, 62½@63½c.

Barley—Fair to choice malting, 60@66c.

Provisions—Mess pork, per bbl., $16.70@16.75; lard, per 100 lbs., $9.40@9.42½; short ribs sides (loose), $8.35@8.50; dry salted shoulders (boxed), 7⅞@7¾; short clear sides (boxed), $8.30@8.40.

Whisky—Basis of high wines, $1.22.

Clover—Contract grade, $9.75.

	Receipts.	Shipments.
Flour, bbl.	22,000	22,000
Wheat, bu.	92,000	35,000
Corn, bu.	97,000	124,000
Oats, bu.	230,000	284,000
Rye, bu.	13,000	2,000
Barley, bu.	78,000	18,000

On the produce exchange today the butter market was steady; creamery, 18@23½c; dairy, 14@20c. Cheese, steady, 10½@11½c. Eggs, weak; fresh, 24@24½c.

Chicago Cattle Market.

By Associated Press.

Chicago, Jan. 17.—Cattle—Receipts, 2,500; beef cattle steady to strong, cow stock slow. Good to prime, $6.50@7.40; poor to medium, $4.60@6.50; stockers and feeders, $2.25@4.75; cows, $1.25@4.65; heifers, $2.25@5.00; canners, $1.25@2.25; bulls, $2.00@4.50; calves, $2.50@6.50; Texas fed steers, $3.25@5.60.

Hogs—Receipts today, 32,000; tomorrow, 30,000. Left over, 3,000. Opened steady, closed strong. Mixed and butchers, $5.90@6.40; good to choice, heavy, $6.30@6.55; rough heavy, $5.90@6.25; light, $5.60@6.00; bulk of sales, $5.95@6.20.

Sheep—Receipts, 13,000; steady. Lambs, steady to strong. Good to choice wethers, $4.20@5.00; fair to choice, mixed, $3.75@4.10; western sheep, fed, $4.25@5.10; native lambs, $3.50@6.00; western lambs, fed, $3.00@6.60.

DAMON-JERRY JOHNSON JURY FAILS TO AGREE

Special to the Gazette.

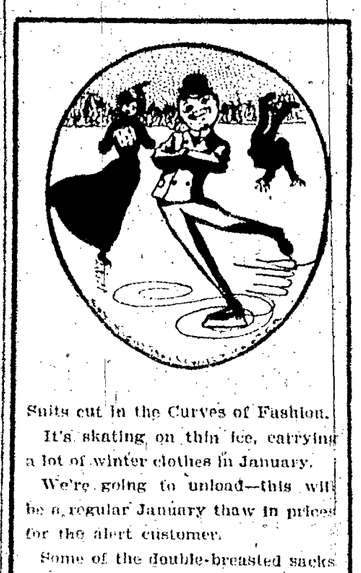
Cripple Creek, Jan. 17.—At midnight tonight the jury in the Damon-Jerry Johnson case had not reached a verdict and was locked up for the night. It has been out for 51 hours and it is probable that tomorrow morning a disagreement will be reported.

SHOWING IN WORKINGS OF ANACONDA IMPROVING

Upraising and sinking have been commenced on the new vein recently cut by the Anaconda company on the main tunnel level in the Lone Star claim. This shoot has now been opened up for a distance of about 40 feet, and where the miners are now working the ore body has widened out to fully five feet. The trial shipment of about 40 tons, which was broken with machine drills, returned values of 1.54 ounces, or $30.80 a ton, and the ore now being saved is estimated to be worth $60 a ton.

The showing on the Anaconda company's workings at the tunnel level on the new strike is improving with every foot of development. There is now showing at a depth of about 800 feet below the surface five feet of ore that will average $60 a ton. An uprise has just been started and a winze is down about 10 feet. This winze will be sunk at least 100 feet and the ore followed on the incline.

Something new on want ad page.



Suits cut in the Curves of Fashion.

It's skating on thin ice, carrying a lot of winter clothes in January.

We're going to unload—this will be a regular January thaw in prices for the alert customer.

Some of the double-breasted sacks to whom we gave the sack yesterday, still here.

Today, 35 winter weight sack suits (the kind of suits that have made American clothing world famous (for $15—If your size is here, you're $8 ahead of the game.

Observers—Z. T. Roberts and W. L. Nead.

Contents of Columns:

1. Barometer. Actual pressure in inches of mercury at 12 noon.
2. Thermometer at 6 a. m. (degrees Fahrenheit).
3. Thermometer at 12 m.
4. Thermometer at 6 p. m.
5. Maximum thermometer as read at 6 a. m.
6. Minimum thermometer as read at 6 p. m.
(Readings below zero occur on the 19th, columns 2, 3, 5 and 15th, column 6.)
7. Relative humidity (per cent of saturation) at 12 m.
8. Mean relative humidity (average of observations at 6 a. m., 12 m. and 6 p. m.).
9. Direction of wind at 6 a. m. (besides the usual letters for points of the compass, C indicates a calm, and V variable.)
10. Direction of wind at 12 m.
11. Direction of wind at 6 p. m.
12. Maximum velocity of wind in miles per hour during the 24 hours ending 6 p. m.
13. Character of sky at 12 m. (C clear, P partly cloudy and O overcast or cloudy.)
14. Precipitation. Amount of rainfall including snow as melted, in inches of water. T signifies "trace," that is, less than one-hundredth of an inch.
15. Letter referring to remarks in column below.

The maximum temperature of the month was 69 degrees and occurred on the 23d. The minimum temperature, 3 degrees below zero, on the 19th. The total precipitation was .18 of an inch (water), including 5.2 inches of snow. Sixteen days of this month were recorded as clear, 10 as partly cloudy, 5 as cloudy, and there were eight days on which a measurable amount of precipitation occurred, the greatest amount in any one day being .07 on the 12th. The maximum barometer was 24.75 and the minimum 24.494, both at 6 p. m., the former on the 19th, the latter on the 23d. The mean barometer at 6 a. m. was 23.861, at 12 m. 23.827 and at 6 p. m. 23.872. The maximum velocity of wind was 64 miles an hour, on the 18th and 23d. There were three nights during which the temperature remained at or below the freezing point, as shown by the readings of minimum thermometer, on the mornings of the 3d, 18th and 23d.

Remarks on the Snowfall of Individual Storms.

These remarks include the record of the time of beginning and end of precipitation, as noted by the observers of the weather station; also a brief statement of the position of areas of low or high barometer, at the time of fall, as indicated by the weather maps of the United States service, and, finally, inclosed in quotation marks, some extracts from the notes of Prof. J. C. Shaw, bearing upon the form and character of the individual snowflakes, the microscopic examination of which has formed a subject of his investigation during some months past, and has furnished results which have been presented in several lectures.

Dec. 4.—Rain Friday night. High barometer in Wisconsin, low in extreme N. W.

Dec. 5.—Snow, 8.45 a. m. to 1 p. m. Low area centered on S. W. Colorado.

"Granular."

Dec. 11-12.—Began during the night preceding 11th, ended 4 p. m. 12th. Low in Arizona and New Mexico. On the 11th: "Early a. m. granular; 9 a. m., crystalline, sizes, one-thirty-second to one-sixteenth inch." On the 12th: "Snow, fine and drifting, granular."

Dec. 16.—Began 8:30 a. m., Ended during night. Low barometer in E. Nebraska and Kansas. High area west of the mountains, pushing eastward during the day. "Day began cloudy, no wind. At 8 a. m. light wind from W. and N.W. Snow granular and fine. Temperature near freezing point, and falling. Temperature fell all day. No crystals."

Dec. 19.—Began during night, ended 4 p. m. High barometer far in the north. Principal low area S.W. of California, but indications of a subsidiary center in W. Wyoming. "During previous night became cloudy, at about 3 a. m. began to snow. Flakes small, crystalline, with granular coatings. Structure close. The fall of snow was light. In the morning there was a light, fluffy fall * * * Large open crystals, free from granulation. During the a. m., the temperature being from 26 to 30 degrees, there were flakes dying, small, compact crystals. Wind light from N. Clouds low, hanging, nimbus. During p. m. wind W., light, temperature about 31, clouds cumulus. Flakes of snow fell in flurries; crystals as in a. m., but larger and more elaborate."

Dec. 24.—From 5:30 a. m. to 6 p. m. This snowfall followed the chinook wind of the 23d, which, blowing down the mountains, produced the maximum temperature of the month, together with a dryness much below the average. (The table shows that before sunrise the thermometer stood at 57.) The impulse to this wind was an area of high barometer just behind the mountains, centered at the S.W. corner of Colorado. By the 24th, this anti-cyclone seems to have spent itself, and a low area formed eastward, about Oklahoma. The wind was reversed in direction, and the snowfall followed. In consequence, "Wind in north at about 9 a. m. granular snow began, changing later to small crystals and then to larger branching discs. Clouds nimbus, temperature near 32. The storm cleared in about an hour, but was rather thick while it lasted." This indicates that the most of the snowfall took place in a small part of the time during which, according to the observers, there was more or less of it.

Dec. 27.—From 10:30 a. m. to 4:30 p. m. High barometer on plateau to west of mountains.

The month of December, while by no means so uniformly free from clouds and cold winds as November was, nevertheless on the whole left the impression of a warm and pleasant month for the season, the snowfall being in no instance of more than an insignificant amount, and never remaining long on the ground.

"THE PRIDE OF JENNICO."

"The Pride of Jennico," the great romantic drama founded upon an incident in Agnes and Egerton Castle's novel and prepared for stage representation by Abby Richardson and Grace L. Furniss, will be seen at the Opera house Monday evening.

The story deals with the adventures of a young Englishman, Earl Jennico, who has been made the heir of his great uncle who, dying, has imposed the condition that he marry a woman as well born as himself.

Settling on his late uncle's property, which is in some semi-mythical country in Central Europe, Jennico in an idle hour comes across two young women of beauty and agreeable personality. One is made known to him as the Princess of Dornheim, Marie Ottilie, the other as her maid. Though Jennico in time becomes engaged to the princess it is really the maid whom he loves. After the wedding ceremony, on returning to his castle, he is stunned to find that the maid has been substituted for the princess in the dark chapel and that he has married her instead of her royal mistress. While he loves her, he is naturally piqued at the deception, but finally love triumphs and he agrees to forgive and forget.

In the meantime the audience has been taken into the confidence of the authors and understands that the two girls have been masquerading in each others characters, and that the bride is the real princess after all. Afterwards a breach grows between the lovers, owing to jealousy and misconception on the part of the hero and woman, only to end on that of the story, until they separate. It is then that Gast realizes that he loves her truly, in spite of her supposedly low birth.

Thereafter he does everything in his power to win her back. A villain appears in the person of Prince Eugen, a former wooer of Ottilie, and throws every obstacle in Jennico's way, even hiring assassins to attempt his life, but in the end the young Briton triumphs over all obstacles and finally overthrows the villain and wins his wife in most approved fashion.

The play is one of the greatest successes of the day, having had a run in New York which created the best part of a year.

The scenery is fine and requires a special baggage car for its transportation. All the furniture, draperies and stage effects are carried by the company, which is first-class and numbers among it such well-known names as Wallace Worsley, Theodore Kebrwald, Daniel Decker, Frances Nelson, Suzanne Halpree, Alleen May and others.

CHICAGO SYMPHONY.

The Chicago Symphony orchestra will appear at the Opera house next Tuesday and Wednesday evenings. This will be the best musical organization that has ever appeared in Colorado Springs. An exchange from Memphis, Tenn., says: "One of the largest audiences that was assembled in the auditorium this season gathered for the opening event of the lecture course conducted under the auspices of the Memphis lyceum. It was eminently a social event, and the audience numbered many prominent social leaders. It was pre-eminently a distinguished gathering and an appreciative one.

"The inaugural attraction was the Chicago Symphony orchestra, an organization of national note which, under the skillful direction of Adolph Rosenbecker and the business management of Charles Beach, will win still more merited criticism from the music lovers of the continent.

"Owing to a series of accidents to the train which was so reduled to bring the orchestra to Memphis it was nearly 10 o'clock before the first number was played. None of the members of the company had time to eat supper, and playing after a long and tedious journey was expected to be uncertain, but only the very skilled and critical observed any unsatisfactory effect.

"The Chicago Symphony orchestra realized at that was promised for it in advance. It is well-balanced, the strings being in perfect harmony, with just enough of reeds and brass to temper the tone. The director of an orchestra, to be successful, must be as tyrannical as the czar of Russia. He must watch every man and hear every note; he must be absolute master of the situation and of his men. Mr. Rosenbecker is all of this. His salon tells the story of faithful training, and his orchestra, instead of presenting a number of skillful performers, presented one perfect instrument which he played upon last night with the most perfect understanding. The first number showed what the orchestra could do with the great Wagner overtures, giving the overture to "Tannhauser" as well as it has been heard here in years. The clumsy was reached in the faultless performance of Grieg's 'Peer Gynt' suite, and in the playing the members of the orchestra forgot their fatigue."

Excursion Rates

To all southern and southeastern fourist points, also Ft. Worth, Texas, via Rock Island route. Call particulars at City Ticket Office, No. 2 Pike's Peak avenue. 'Phone 78. W. W. Wood, general agent passenger department.

WEATHER FORECAST.

Washington, Jan. 17.—Forecast for Colorado: Fair and colder Saturday; Sunday fair, variable winds.

Battered people wear Ashby's spectacles.

BORN.—On Thursday night, to Mr. and Mrs. Roth, of 2 Antlion, a son.

WEBER HALL DANCE.—There will be a dance at Weber hall this evening, under the direction of Mr. C. E. Cox.

BORN.—To Mr. and Mrs. R. S. Haggerty of No. 1027 Midland street, on Wednesday morning, a daughter.

CHURCH SOCIAL.—Members of the Second Congregational church and friends attended a social at the church last evening.

FUNERAL.—The funeral of the late Mrs. Isabella Strong was held yesterday afternoon. Services were held at Grace church.

SATURDAY MARKET.—The ladies of Grace Church guild will hold their usual Saturday market this afternoon at 2.30 in the choir room of the church.

RECEPTION.—The Sutton hose company gave a reception last night to a number of volunteer firemen. The members of the Adams hose company attended.

SUMMONED TO OHIO.—F. M. Dipson received the sad news of the death of his father yesterday, and left last night, accompanied by his daughter, Miss Nad, for Ohio.

MR. HILL A DEPUTY.—Mr. Frances B. Hill, secretary of the Humane society, has again been appointed a special deputy sheriff. Sheriff Gilbert made the appointment yesterday.

TICKETS ON SALE.—Tickets for the King Shakespeare recitals which will be held Tuesday evening, January 23, and Monday evening, January 27, go on sale this morning at Hoyt's and at Cobburn library. Popular prices.

CHURCH OF STRANGERS.—Nevada avenue and East Huerfano. Rev. J. O. Paisley, pastor. Preaching tomorrow by the pastor. 11 a. m., "A Communion Meditation." 7:30 p. m., "Stabbed."

ENTERTAINED.—The Men's league of the First Congregational church was entertained last evening by Dr. Libby at his home on North Cascade avenue. Prof. Parsons and Mr. Carl Schuyler made addresses.

CHRISTIANITY AND SOCIALISM.—An address upon the topic of "Christianity and Socialism" will be delivered on Sunday afternoon at 2:30, January 19, in District Court Room No. 1, by Mr. J. W. Martin of Denver. All are cordially invited.

RATHBONE SISTERS.—The Rathbone Sisters of Hermione Temple and their husbands and sister knights and their wives are invited to celebrate their anniversary at the home of Mrs. J. W. Pennington, 22 North Willow street, Monday evening, January 20, from 8 until 10 o'clock.

DR. HERING IMPROVING.—Dr. L. A. Hering, who was injured a week ago by being thrown from his horse, is improving slowly. His trouble now is nervous prostrat on and he is permitted to see no one. Until he is able to attend to his practice again his patients are being attended by Dr. Swan.

WILL PLAY HERE.—Burt Jones, the left-handed pitcher who has been signed to play with the Mill ouakers during the coming season, is in Denver and denies rumors that he intends to play in Philadelphia this summer. He says he will stick to his contract with the local team if Colorado Springs has a team in the field.

SPECIAL TRAIN.—Another special train will be run by the Short Line to Cripple Creek and return tomorrow. The fare will be 80 cents for the round trip. The train will leave the Rio Grande depot at 8:30 o'clock in the morning and will start on the return trip at 3 o'clock.

EXAMINATIONS.—The United States civil service commission will hold examinations for applicants for a number of positions soon in Denver. Applicants should apply to H. C. Hefner, secretary of the board of examination, Federal building, Denver. The applications are for electricians, teachers, engineers, mechanics, etc.

Real Beauty

is not to be found everywhere, but right here in Colorado Springs is one of the most reliable in the country.

We are prepared in many ways

If we promise you work at a certain time, you are sure to get it.

If you want your woolen blankets and underwear laundered as soft and fluffy as new, we can please you.

If you want delicate colored shirts or shirt waists laundered without injury, we can do it for you.

If you want the very best laundry work in every detail, we can please you.

Let us call for and deliver a package and show you a sample of the prettiest work you ever had.

"THE COLORADO ROAD."

The Colorado and Southern Railway, Depot—East Pike's Peak Avenue (Union Passenger Station.)

NORTH BOUND
No. 3—For Denver and Central City

A HIGH CLASS TOUR TO MEXICO.

The Colorado & Southern railway, in connection with the American Tourist association, will run a high class excursion to old Mexico, leaving Denver January 28, 1912. The tour will be comprehend everything of interest in the sister republic and will occupy 40 days. The party from Colorado and west will be under the personal escort of a representative of the passenger department of the Colorado & Southern. Special sleeping cars will start from Denver, joining the special train at San Antonio in which the entire trip through Mexico will be made.

It is hardly possible to comfortably view our neighboring republic and particularly those portions not directly upon the main thoroughfares of travel except by special train and not many of our possible patrons are so situated as to be able to command such a special train service at pleasure. But if our people were possessed of more ample wealth, he could not by any expenditure of his means bring to his service more satisfactory or numerous accommodations than offered in the special vestibuled, dining car, observation car, Pullman train in which this tour will be made.

Leisurely schedules will be made with long stops and there will be no hurrying. It will be purely a pleasure sightseeing an educational trip and will be restful. All disagreeable features of the "personally conducted" system will be eliminated. There will be no processions on foot or in carriages or moving about in a body, a thing objectionable to many.

The trip will include such interesting places as the famous ruins of Mitla, Cuernavaca, Jalapa, Tecoelo, Orizaba, Oaxaca and Tampico. Seven days will be spent in the City of Mexico. There will be Conducted Tours in the Tropics.

Tickets will include every proper item of traveling expense—railroad and sleeping car fares, meals in dining cars, carriages, special street car trips, hotels, guides and interpreters.

It is not intended to take a large party, our idea being to make it select and congenial.

For complete itinerary, rates, tour and information as to cost of tickets and for reservations, communicate with any Colorado & Southern Railway agent, or address T. E. Fisher, General Passenger Agent, Denver, Colorado.

Dr. Grannis, dentist, 1st Nat. Bank Blk.

For Sale—Pueblo Real Estate.

DAVIS & DUNCAN, 7 N. Tejon St.

Remnant Period of Our Mammoth Linen Sale

The great linen movement has reached that stage where a countless number of remnants have accumulated. Linens of worth at reasonable prices have made this store the busiest spot in town.

The housewife, the hotel keeper and the restaurant owner have all reaped the advantages this sale offers. Thus the accumulation of remnants.

Those we will dispose of at 5 to 25 per cent below the regular marked prices. Damask by the yard, napkins to match, napkins by the dozen, towels, tablecloths, bedspreads, bedsheets, blankets, comfortables, crashes, etc. Prices range up to 7 yard lengths.

Additions to Our Corset Waist Sale

$1,500 worth of tasty undermuslins have been added to this sale. The lingerie-loving women need look no further to satisfy their heart's most critical desire. Chemise, Corset Covers, Drawers, Skirts, etc., that are most fascinating in their showy whiteness—dexterously-wrought seams, tasty embroidery, insertion, lace and ribbon trimmings—all most temptingly fashioned. If you could not find what you wanted in the first assortment, it's most certain to be among this lot. The same low prices prevail as before.

Waists Reduced

Entire line of wool and corduroy waists reduced. We need not dwell upon their merits. They are well known. The price this week is.....ONE-HALF

Suits Reduced

Space will not permit description. We will say, however, that they will prove a source of happiness to many women at a discount of.....ONE-THIRD

White Goods and Embroideries Advance Arrivals

There is an advantage of exclusiveness in selecting from these early arrivals. The factories are so rushed as the season advances that duplication is well nigh impossible.

Every known weave is here in white goods. In Embroideries the matched sets are probably the most interesting—all-overs, embroideries, insertions and edges to match.

Two specials quoted to promote interest:

100 pieces of fine Nainsook Edges, worth 15, 18, 25, 30c, to close quickly, yard 2½c
50 pieces Hamburger two-inch Embroideries and narrow Nainsook Edges, were 10c, 12½c, 15c; now, yard 5c

Guaranteed Black Taffetas

Countless are the Black Taffetas sold over the retail counters that have all the appearances of desirable silks. The deception is perfect. Don't be deceived; buy only the guaranteed kinds. Ours have our name and guarantee stamped upon every yard. This week we offer some interesting price concessions:

19-inch Black Taffeta for $ .75 yard, worth ..... $ .85
21-inch Black Taffeta for .85 yard, worth 1.00
23-inch Black Taffeta for 1.00 yard, worth 1.25
29-inch Black Taffeta for 1.25 yard, worth 1.50
